Hard Fighting on Russian and Italian Borders Reported

By Associated Press.

LONDON, June 10, 6:10 p.m.—Two British torpedo boats were torpedoed this morning off the east coast of England by a German submarine.

The boats are the No. 10 and the No. 12. Both of them went to the bottom. The survivors, forty-one in number, have been brought ashore. The attack took place at a very early hour. This information was given out by the admiralty today.

ROME, via Paris, June 10.—Efforts of Italian troops to force a passage of the Isonzo river are being stubbornly contested by the Austrians, but are meeting with success, according to a statement signed by General Cadorna, chief of the general staff, issued at the war office tonight. The statement reads:

"With the object of repulsing the enemy from dominating positions, he still holds on the right bank of the Isonzo and establishing strong positions at the passages of the river, we continued our operations on June 7th and 8th. The enemy offered a determined resistance, favored by the lay of the ground and strong fortifications. Our passage was made more difficult by numerous obstacles placed on the bridges and in the roads and also by the flooded ground along the lower course of the river. Everywhere our troops fought with ardor and tenacity and succeeded in setting at rest the enemy's forces, thus occupying the city of Monfalcone. The fire of our batteries considerably damaged the enemy's artillery at a number of points.

"In the difficult region of Monte Nero a successful attack on our part

British Mobilization Rumor Set at Rest

By Associated Press.

LONDON, June 10, 4:02 p.m.—The total number of men for the army and navy sanctioned by Parliament for service so far in the European war is 2,200,000.

"The number will not be exceeded without authority of Parliament," said Premier Asquith today. "Thus setting at rest rumors that other forces had been mobilized without public knowledge."

Crews of British Trawlers Rescued

By Associated Press.

LONDON, June 10, 4:14 p.m.—A news dispatch received here from Maas Luyt says the crews of the British trawlers *Qui Vive* and *Edward*, which have been sunk by German submarines, were rescued by a Dutch steamer and brought into Maas Luyt.

ALAMEDA COUNTY THROWS TO FAIR

Nobody home! This literally explains Alameda county's condition today. Alameda County Day at the exposition is by far the biggest of similar events that has occurred since the big show opened in February, and sets a record for attendance, enthusiasm and display which will probably not be surpassed between now and the time the exposition closes its gates on the night of December 4th.

Alameda county is deserted today. Financially and socially, the county has been transplanted from the eastern shores of San Francisco bay and implanted in the fertile soil of Jewel City. From the first exposition boats of the morning until late this afternoon great crowds made their way to the common center of attractions. Still many more thousands will leave this evening to participate in the joy carnival on the zone tonight.

Business is almost an unknown thing on this side of the bay today. Every big store and practically every one of the small stores are closed, and have been so all day. Every business house that was compelled by legal procedure or by laws of necessity to keep its doors open is conducting business with as scanty a force as possible.

The United States government even recognized the occasion, as Postmaster-General Burleson wired from Washington to Postmaster Joseph J. Rosborough, granting special permission to close the postoffice at noon. The carriers made but one collection and delivery. The city hall is almost deserted, barely enough clerks being left there to carry out what straggling business is going on. The courthouse was fairly active up to noon, but the superior courts were closed at that hour, and the business of the county is being conducted by a few deputies.

BLUE AND GOLD RULES.

The exposition grounds today are alive with the official colors—blue and gold. All within the gates are decorated with the colors. Further color is added to the scene by the gay dresses of the women and children. The gay trappings of the floats and the colors of the decorated automobiles in the morning parade added a beautiful and varied color to the scene.

Credit for the unequalled success of today's celebration must be awarded to members of the board of supervisors to the county exposition commission and to their employees, who worked hard to have installed in time the county's new exhibit in the California building. The exposition commission members are J. A. Leach Jr. (chairman), C. J. Heesman, A. F. St. Sure, Wells Drury, Theodore Gier, Winour Walker and T. G. Callaghan. A. A. Hanson, manager of the California county display, and Fred Parsons, superintendent of construction, with Heesman, St. Sure and Callaghan, superintended the installation of the new county exhibit.

INDUSTRIAL PARADE.

The celebration began with the start of the industrial parade from the ferry building at the foot of Market street at 10 o'clock. Close to sixty floats, representing everything from a boat to a factory, were in the parade. The parade, and showing the wide and varied range of the industries here, were in the line of march. Battery B preceded the parade. John W. Phillips was marshal. The long line of floats proceeded to Van Ness avenue, and to the entrance of the zone.

Inside the zone, the civic and fraternal organizations' division of the parade had ground, and were there joined to the industrial division. Every organization in the county was represented in the waiting divisions. Drum corps, bands, drill teams, marching men and women, and hundreds of decorated automobiles joined the parade, which proceeded down the zone to the Avenue of Palms, west of the zone to Administration avenue, where the marchers went north to the display, and were dismissed.

One of the most impressive exercises of the day was the patriotic flag drill given by the Alameda county school children under the direction of G. U. Pfund. These exercises were held at the Marina at 10:30 o'clock. Harry G. Williams was marshal of the parade children.

A. F. St. Sure acted as chairman at short literary exercises which began at 10:30 o'clock. President C. C. Moore of the Exposition delivered a short address of welcome, in which he declared that Alameda county had the key to the heart of San Francisco as well as to everything in the Exposition. Response was made by Supervisor D. J. Murphy, chairman of the board of supervisors, and by Superior Judge William H. Lonsdale. Music was furnished by an Oakland school boys' band of 150 pieces.

SPORTS IN GARDENS.

At 1:30 o'clock amateur sports, including a score of different events, took place in the North Gardens of the Exposition grounds. Before children from all parts of the county competed. George E. Dickie, Oakland recreation superintendent, had general charge of this feature of the program. W. L. Seagrave was referee. Otto Rittler, chief clerk, E. M. Vail, starter, E. E. Hall, J. E. Nash, E. F. Smyth, Graham Moody, E. E. Ellsworth, Charles Fern, R. M. Scott and George Clark, judges of finish; E. W. Kettinger, L. D. Morton, Guy Smith and E. Hensley, timers.

One of the most notable performances ever held in the Exposition grounds occurred at 2:30, when the Alameda County 1915 chorus, under the direction of Alexander

U. S. NOTE REACHES BERLIN

Ambassador Expected to Present Message to Germany Today

Firm Demand for Reparation for Victims of Lusitania

By Associated Press.

WASHINGTON, June 10.—The American note to Germany concerning the sinking of the *Lusitania*, which precipitated the crisis in President Wilson's cabinet, and as a climax to which William J. Bryan resigned as secretary of state, was believed here to have reached Ambassador Gerard in Berlin early today. It was expected that the ambassador would present the communication immediately to the German foreign office. It will be given out tonight for publication tomorrow morning. In the meantime President Wilson has asked that detailed forecasts of the note be not published.

It is understood here that the German government will not make answer to the American note until after Meyer Gerard, the special envoy chosen by Count von Bernstorff, the German ambassador, to outline the American point of view to the government at Berlin, and explain the situation. This, it is estimated, will take at least a week or ten days.

The latest note, though couched in friendly terms, reiterates firmly the demand for reparation for the loss of American lives in the sinking of the *Lusitania* and sets forth clearly the earnest desire of the American government that Germany signify her early adherence to the principles of international law—that neutrals be permitted to travel on unarmed ships without being subject to the dangers of submarine warfare.

Austrian Airships Make Serbian Raid

By Associated Press.

PARIS, June 10, 2:15 p.m.—The Havas News Agency has received a dispatch from its correspondent at Nish, Serbia, who says that at an early hour this morning three Austrian aeroplanes flew over Kragujevac, where there is an arsenal and factories for making arms and ammunition, and threw down three bombs. Three persons were killed and ten were wounded. Serbian aeroplanes pursued and attacked the Austrian airships. One Austrian machine, struck by bullets, fell to earth in Austrian territory.

English Naval Losses Are More Than 6000

By Associated Press.

LONDON, June 10.—The total number of officers and men who have perished through the sinking of British naval craft since the outbreak of the war is 6408, according to a statement made by T. J. McNamara, financial secretary of the admiralty, in the House of Commons this afternoon. This total does not include the men who lost their lives on the mine layer *Princess Irene* and the British battleship *Bulwark*, both of which were blown up in Sheerness harbor.

Austrians Quit Big Fort, Italian Report

By Associated Press.

VERONA, Italy, June 10, via Paris.—The Italian troops invading Austria through the Arsa valley toward Rovereto, to the south of Trent, discovered that the Austrians had abandoned Fort Pozzaccio, two miles north of Matassone, rated as one of the strongest Austrian fortifications in that region.

House Will Discuss New Vote of Credit

By Associated Press.

LONDON, June 10.—Premier Asquith announced in the House of Commons this afternoon that a further vote of credit would be discussed on Tuesday of next week. It is understood the new vote will be for 250,000,000 or 300,000,000 pounds.

GERMANS DO NOT RECEDE Claim Right to Sink Sailing Ship SAY NO TREATY BROKEN

By Associated Press.

WASHINGTON, June 10.—The following is the German reply: "Foreign Office, Berlin, June 7, 1915. The undersigned has the honor to make the following reply to the note of His Excellency, Mr. James W. Gerard, ambassador of the United States of America, dated April 30, 1915, Foreign Office No. 3291, on the subject of the sinking of the American sailing vessel, *William P. Frye*, by the auxiliary cruiser, *Prinz Eitel Friedrich*."

"The German government cannot admit that, as the American government assumed, the destruction of the sailing vessel mentioned constitutes a violation of the treaties concluded between Prussia and the United States at an earlier date and now applicable to the relations between the German empire and the United States, or of the American rights derived therefrom. For these treaties did not have the intention of depriving one of the contracting parties engaged in war of the right of stopping the supply of contraband to his enemy when he recognizes the supply of such as detrimental to his military interests.

"On the contrary, Article 13 of the Prussian-American treaty of July 11, 1799, expressly reserves to the party at war the right to stop the carrying of contraband and to detain the contraband. It follows then that if it cannot be accomplished in any other way, the stopping of the supply may in the extreme case be effected by the destruction of the contraband and of the ship carrying it. As a matter of course the obligation of the party at war to pay compensation to the parties interested, the neutrality contracting party remains in force whichever be the manner of stopping the supply.

Courts to Decide

"According to general principles of international law, any exercise of the right of control over the trade in contraband is subject to the decision of the prize courts even though such right may be restricted by special treaties.

"At the beginning of the present war, Germany, pursuant to these principles established by law prize jurisdiction for cases of the kind under consideration. The case of the *William P. Frye* is likewise subject to the German prize jurisdiction, for the Prussian-American treaties mentioned contain no stipulation as to how the amount of the compensation provided by Article 13 of the treaties cited is to be fixed.

"The German government therefore complies with its treaty obligations to a full extent when the prize courts instituted by it in accordance with international law proceed in pursuance to the treaty stipulation and thus award the American interested an equitable indemnity. There would therefore be no foundation for a claim of the American government unless the prize court should not grant indemnity in accordance with the treaty. In such event, however, the German government would not hesitate to arrange for equitable indemnity, notwithstanding.

"For the rest, prize proceedings of the case of the *Frye* are indispensable, apart from the American claims, for the reason that other claims of the neutral and enemy interested parties are to be considered in the matter.

Says Ship Was Liable

"As was stated in the note of April 4th last, the prize court should have to decide the question whether the destruction of the ship and cargo was legal, whether and under what conditions the property sunk was liable to confiscation and to whom and in what amount indemnity is to be paid, provided application therefor is received.

"Since the decision of the prize court must first be awaited before any position is taken by the German government, the simplest way for the American interested parties to settle their claims would be to enter them in the competent records in accordance with the provision of the German code of prize proceeding.

"The undersigned begs to suggest that the ambassador bring the above to the knowledge of his government and avail himself, etc.

(Signed) "YON JAGOW,

"Minister of Foreign Affairs."

DYNAMITING OF SHIP IS JUSTIFIED

Teutons Declare That Destruction of Frye Was Proper Act

So Long as Germany Pays for Damage U. S. Has No Complaint

By Associated Press.

WASHINGTON, June 10.—Germany's latest note to the United States on the sinking of the American sailing ship *William P. Frye* by the *Prinz Eitel Friedrich* received here today makes the far-reaching claim of a right to destroy any American vessel carrying contraband while agreeing to pay damages for the act.

Two points made by the United States are rejected by Germany. One was the statement of the American government in its notes of April 28 that prize court proceedings meant unnecessary delay, all matters concerned being susceptible for prompt settlement through diplomatic channels; and the other was that the destruction of the *Frye* was "unquestionably a violation of the obligations imposed upon the imperial government under existing treaty stipulations between the United States and Prussia."

Under the Prussian-American treaty of 1823, the binding force of which was admitted by Germany in its note of April 28, the right of citizens of either country to ship arms and ammunition, as well as all other kinds of contraband in their own vessels, was granted in time of war, but each party had the right to claim such contraband and make payment for it if confiscated.

The note from Germany today enlarges upon the treaty of 1823 by claiming that while the treaty did not specifically permit the destruction of a ship, nevertheless its contraband could not be stopped in any other way, it could "in the extreme case be effected by the destruction of the contraband and of the ship carrying it."

The effect of Germany's answer today, if its assertions are accepted by the United States, would be to throw into the prize courts for decision all cases of American vessels carrying contraband in time of war.

International law, outside of treaty stipulations, has contained many a moot case on that point. While the Declaration of London, established finally that in case of military necessity a ship whose cargo was more than half contraband could be destroyed after passengers and crew were removed to a place of safety, the declaration was not ratified by the United States, express notice having been given again by the American government to Germany in the note of April 28 that the declaration was not regarded as in force.

Millionaire's Estate Sued for State Tax

BRYAN TO TAKE PEN IN HAND

Former Secretary Will Issue Statement Regarding Note

Plans to Explain Attitude in Quasi-Appeal to People of Nation

By Associated Press. WASHINGTON, June 10.—Former Secretary of State Bryan is preparing another statement of his attitude toward the American note to Germany.

Bryan's resignation as secretary of state and the circumstances leading up to it still held the center of interest in Washington today, overshadowing even the dispatch of another note to Germany. Its effect on the nation's foreign relations and also its political consequences afforded wide speculation.

Chief interest was centered on the effect of Secretary Bryan's personal statement giving the reasons for his resignation. That statement, Mr. Bryan announced his intention as a private citizen of submitting to the public for judgment his view of what the American policy toward Germany should be.

WANTS ARBITRATION. The proposition which Mr. Bryan expects to urge upon the people and that an offer should be made to Germany to submit the questions in dispute to an international commission for investigation during a year's time, and that meanwhile American citizens should be prohibited from war work or on American vessels carrying ammunition.

These suggestions, Mr. Bryan explained, had been submitted to the President, who had not felt justified in adopting them. It is upon these propositions that Mr. Bryan hopes to create a public sentiment in the United States that will make war with Germany impossible.

Mr. Bryan's statement, some officials thought, was unfortunate, coming at a time when the discussion with Germany was in progress. Some members of the cabinet had advised against the issuance of the statement.

LANSING PROBABLE. There was considerable speculation here today as to who would succeed Mr. Bryan, while the President is not expected to make a choice for some weeks. It was believed that Robert Lansing, counselor of the state department, who has been commissioned as secretary of state ad interim eventually would receive the permanent appointment. Mr. Lansing today began his first full day as secretary.

City May Take Lines No More Franchises

By Associated Press. LOS ANGELES, June 10.—The City Council had before it today a plan for the public ownership of all electric railway lines. Under this plan, which was recommended by the Board of Public Utilities, no more franchises will be granted to the Los Angeles Street Railway (company) but the city will enter into underlease contracts covering lines for which franchises have expired, which would permit such lines to operate until the municipality is in position to take them over.

These contracts, according to the recommendation, should be so that they might be terminated any time the city desires. Several franchises will expire during the next four years.

Consul Skillman at Vera Cruz. Mr. Skillman said officers in charge of the relief expedition sent from Vera Cruz reported ample facilities to take all of the refugees to the coast. The train probably will reach Vera Cruz today or tomorrow morning, and the refugees probably will be transferred immediately to the U. S. transport Buford. The Buford will stop at Tampam for more refugees if it has room.

A message from the Brazilian minister in Mexico City says W. P. Moats, an American resident, shot and killed two Mexicans Tuesday while they were attempting to rob his house. He was the fourth time within the last few months that Moats' house had been attacked by robbers. The robbers said and he repeatedly had asked for police protection. Moats was arrested and the Brazilian minister reported he had obtained his release with difficulty.

A message from Special Agent Carothers, dated Gomez Palacio, June 7, said Villa's secretary of foreign affairs had left for the front to deliver President Wilson's statement on Mexico to his chief. Carothers added that the battle is continuing fiercely, with all advantage on Villa's side.

A message from Monterey forwarded to the Red Cross contained a request for 2,000 cakes of hand soap to "improve the sanitary condition of the poor."

WOMEN WILL BRAVE YAQUIS ON WARPATH

By Associated Press. NOGALES, Sonora, June 10.—Mrs. George Anthony and Mrs. F. Landis, two women of Los Angeles, left here today to make their way alone to Esperanza in the Yaqui valley, where a colony of Americans were attacked by Yaqui Indians last month. The women who have relatives in the colony, declared they were not afraid of the Yaquis. Mrs. Anthony, a Yaqui leader, has ordered 3,000 blankets for his warriors. W. C. Graham, an Englishman, who received the order, said Sabuam told him that in the event the United States intervened in Mexico, the Yaquis of the Indians would be with the Americans, but that the Yaquis, instead of joining troops from the north, would continue their independent war on the Mexican factions.

HEAVY LOSSES IN BATTLE AT FORT

Flanking Wings Assailed by the French Troops in Desperate Attack.

By Associated Press. PARIS, June 10.—A French official today declared that the fighting in the valley east of Toul had taken the details of the capture of the French forces several days ago of the German forces.

Before this position, the narrative said, the Germans formed a deep salient, the "key" of which was a small trench and both the wings were well protected from a main line of parallel trenches which were heavily fortified. The position was approximately 100 yards in extent, situated on a high place which overlooked the surrounding country for several miles. It was captured by the French troops June 4.

Throughout June 5 there was a heavy bombardment of the entire German position which was continued during the night. This effectively prevented the Germans from making repairs to the fortifications. Our fire was very effective, the two battalions which held the position suffering heavy losses. Many of the men being buried alive beneath their bomb-proof barriers.

We attacked with two battalions composed of Zouaves, tirailleurs, Moroccans and Britons. The latter were carried three days rations, two hundred and fifty rounds of ammunition, hand grenades and sacks filled with earth to serve as temporary shelters in the captured trenches.

SLIGHT POSITION. "When the command to charge was given, the whole line, as one man rushed across, the trenches 150 to 200 yards. Slight opposition was encountered. Only one quick-firer was used by the Germans, which occasioned some losses, as the trajectory was too high. The attack began at 10 o'clock and half an hour later the Germans were driven from the captured trenches.

The "clean sweep" ordered had been rapid and complete. Two hundred and fifty prisoners were the sole survivors of the two battalions. The reinforcements which the Germans endeavored to bring up were mowed down without mercy. Five. Two thousand of our adversaries were placed out of action.

The Zouaves continued on past the second line of trenches toward Toul. All at once the patrols, which were ahead of the main body of troops, were seen to stop and a sharp shot had been fired. The Germans had placed a low barbed wire entanglement in the high grass field to stop them. Our men soon severed the barbed wire and succeeded in capturing three German cannons which had been effectively hidden beneath bomb-proof a few yards farther on.

POSITION FORTIFIED. "The whole position was captured and quickly fortified to withstand counter-attacks and communicating trenches with the main position were prepared. A counter-attack followed immediately, but it was repulsed by our seventy-five and quick-firers. Our aviators reported that fresh reinforcements had been rushed up from Royal in auto buses. During the night the French attacked but were repulsed each time. The dawn the enemy attacked desperately our two wings but by rain of hand grenades his fire was effectively stopped.

"We counted on the ground where the counter-attack took place approximately 2,000 dead. The total estimate of the enemy losses is 2,000 dead, not counting the wounded. We lost two hundred and fifty men killed and 150 wounded, nearly all of them from exploding shells. We captured 20 quick-firers and also a great quantity of trench material."

Cholera Ravages the Capital of Austria

By Associated Press. GENEVA, Switzerland, June 10, via Paris, 1:40 p. m.—News has reached Geneva tending to confirm reports that cholera has broken out in Vienna. One report refers to 48 cases. Several deaths have been reported.

The disease is believed to have been brought to Vienna from Galicia by wounded soldiers.

Orders have been dispatched to the front for a rigorous examination of every wounded soldier before he is transported to Vienna.

Germany Operating With Vast Armies. LONDON, June 10, 5:07 p. m.—The Evening News has received a dispatch from its correspondent at Petrograd which reads:

"The recovery by the Germans of some of their lost ground in the Baltic provinces has been numerous. It is estimated that 1,000,000 men are operating toward Lemberg and 300,000 against the Dnieper river, all plentifully supplied with ammunition. In the Shavlovsk region the Russians are advancing. The Germans have raised their forces to four and one-half army corps."

Probe Statement That Lusitania Was Armed

By Associated Press. NEW YORK, June 10.—The Federal grand jury convened late today to investigate the allegations that the Lusitania was an armed vessel when it left this port on its last voyage.

Gustave Staple, a German resident, who made an affidavit alleging he saw four six-inch guns, on the Lusitania before she sailed, was the first witness called.

It is understood the affidavit he made was not examined at the office of the German consulate here, as first supposed, but was sworn to before a city notary.

No Ultimatum to Germany in Note. WASHINGTON, June 10.—It became known today that just before the last American note was forwarded to Berlin it was shown to former Secretary Bryan by the Secretary of State.

President Wilson's slight change had been made in the note and the President wanted Bryan to see it in its final form. Pending the publication of the note tomorrow morning officials would not discuss its details, but it was declared it was no more in the nature of an ultimatum than was the last note.

ed to the occupation of positions from which the Austrians fled, leaving 100 bodies, which we buried, and sixty wounded.

SOEDIMEN SURRENDER. "Near Caporetto seventy Bosnian soldiers surrendered.

In other regions along the Isonzo we made over 400 prisoners. Our losses were few. Prisoners say the Austrian losses were considerable.

"On the Trentino frontier our forces continue in close co-operation their action against positions which must be occupied in order to force the enemy to disclose his defensive preparations and permit the development of ulterior operations.

Notwithstanding the determined resistance of the enemy, our troops have approached beyond the frontier close to Palazzone Pass at the foot of the Sasso di Siria. A victorious action at a distance of 10 kilometers about seventy miles north of Cortina d'Ampezzo. A piece of artillery remained in our hands.

In the neighborhood of Monte Croce fighting has been going on for several days for the important position of Frickopol, which the Austrians defended desperately. Our Alpine troops definitely took it on the evening of June 8th, making 100 prisoners.

By Associated Press. HARTLEPOOL, Eng., June 10.—The crew of the trawler Velocity, sunk at sea by a German submarine, were landed here today, after being 32 hours at sea in a small boat without food or water. The men were in a terrible state of exhaustion when picked up by the vessel which brought them to port.

BERLIN CLAIMS LOSS OF ONE SHIP IN BALTIC

By Associated Press. BERLIN, June 10; by wireless to London.—Only one German ship, a collier, was sunk by a Russian submarine in the naval engagement of June 5 in the Baltic Sea, off the Gulf of Riga, according to reliable information obtained here. It is stated that a German destroyer, which was sailing by the side of the collier, was slightly damaged by the same torpedo, but was able to make port.

Denial was made of a report published in the Morning Messenger at Petrograd that there were explosions on other vessels attacked by Russian submarines, or that any other damage was done.

GERMAN ADVANCE CHECKED BY RUSS

By Associated Press. LONDON, June 10.—Careful reading between the lines of the various official announcements of the last twelve hours leads British observers of the situation on the continent to the belief that the weary Russians have been successful in gaining a breathing space along the eastern front.

Furthermore, evidence of the stubborn opposition with the Austrians, German officials said to be meeting near the center of the line in Galicia is declared here to exist in the statement from Petrograd that 2000 Austro-German prisoners have been taken in a series of counter attacks near Przemyśl.

According to Russian reports, the Austro-German offensive in South-east Galicia has not been able to cross the river Dniester at any other point than Zorawana, which is forty miles from Lemberg, and which they reached last Sunday.

Records of contrary this with the statement that the right wing of the army under General Lunsegen has advanced ten miles farther and occupied Stanislaw, an important railroad center.

In the west the French make their usual report of slow progress, accompanied by the repulse of German counter attacks. Asks That Lansing Investigate Charges. WASHINGTON, June 10.—Representative Tague of Massachusetts, asked Acting Secretary Lansing today to investigate charges that American youths taken in crews on British ships sailing from Boston later were induced to enlist in the British army.

Tague said he had letters from parents who alleged their sons had taken such a course.

WOMEN WOULD BATTLE. BERLIN, June 10.—From the town of Brixen in the Austrian Tyrol numerous requests have been received by the military authorities from Vienna from women begging to be allowed to serve in the ranks as soldiers. It has been explained that such service is impossible.

WILL SELL FLAGS. The G. A. R. will sell flags for the benefit of the relief fund and in honor of Flag Day.

AUSTRO-ITALIAN BATTLE IN AIR

Aeroplane and Airship Fight a Duel Above Big Warship.

By Associated Press. BERLIN, via London June 10.—A correspondent of the National Zeitung has sent to his newspaper the following description of the destruction of the Italian airship Citta di Ferrara by the Austrian naval aeroplane L-45 while returning from an attack on the Isonzo front.

Reports were received early Tuesday morning, the correspondent says, "that a hostile airship had been seen heading toward the sea. The L-45 was sent out to investigate with orders to attack if possible. The pilot was Lieutenant Glasing, while the observer was Marine Cadet Von Frutich."

"As soon as the airship was sighted the aeroplane began to ascend, and gaining an advantageous position above the airship it opened fire with a machine gun and a rifle, using a special projectile designed to set balloons on fire. The airship maneuvered wildly in an attempt to escape. It was descending all the time and finally was almost at sea level."

The man on L-45 continued firing. One of the shots that hit the Italian airship set the hull on fire. The gondola fell into the sea. An Austrian torpedo boat was in the vicinity and in a few minutes the two officers and five men composing the airship had been rescued.

None of them was injured and they were made prisoners on board the torpedo boat. Then what was left of the airship went to the bottom."

SAYS GERMANS CAN NOT NOW REcede

Berlin Papers Think Bryan's Action Presages U. S. Ultimatum.

By Associated Press. BERLIN, via London, June 10, 2:10 p. m.—The Vorwaerts and the Tages Zeitung are the only morning newspapers in Berlin comment upon the designation of William J. Bryan, the Vorwaerts says, "Bryan always has been a utopian peace enthusiast, and that his leaving the cabinet now means undoubtedly that the note in the form planned by President Wilson will not lack much of being an ultimatum to Germany."

"We, therefore, have to do here with an event of the greatest importance," says the newspaper.

Count von Reventlow in the Tages Zeitung repeats that Germany cannot recede in any degree from the standpoint already taken, no matter what President Wilson's note may demand. Even the intimation that Germany could consider abandoning her submarine warfare, this writer declares, would be considered by the entire country as an insult.

Dilemma. In the issue of today, calls attention to the sailing of steamships with both munitions of war and passengers on board, saying in this connection: "Our submarines must destroy these munitions, and whenever they come and who does a good business in them is material. If England does not hesitate to carry passengers on board the same ship with this war material it is not possible for us to fulfill our duties without destroying human lives. The responsibility for the mishap rests on England alone."

Italy Claims Success Dislodging Austrians

By Associated Press. ROME, June 10, via London.—An official statement issued at the Italian war office is as follows:

"Reports received of the operations on June 7 and 8 show that the Italians in pursuing along the Isonzo river the task of dislodging the Austrians from strong natural positions and establishing bridge heads are displaying great bravery and tenacity in the face of heavy obstacles, intensified by floods."

"We have occupied the town of Trisone (10 miles northwest of Trieste near the Adriatic). Our losses were not serious, while we took 400 Austrians prisoners."

Open Dikes Fail to Halt Italian Advance

By Associated Press. UDINE, Italy, via Paris, June 10.—The Austrians by opening dikes have attempted to transform the low region of the Isonzo river into a flooded country, duplicating the feat of the allies in Belgium for the purpose of halting the Italian advance. The results were insignificant, however, as most of the water was either absorbed by the earth or carried off by ditches.

GOVERNOR SIGNS SEMI-MONTHLY PAY DAY BILL

By Associated Press. SACRAMENTO, June 10.—Governor Johnson today signed the semi-monthly payday bill, Assembly bill No. 487. This bill, urged by labor representatives, provides that all wages or compensation of employees in private employment must be paid in advance at least twice a month. It does not prevent the payment of wages weekly. All wages must be paid in lawful money or in negotiable coin or draft. The state reclamation board bill, which takes out some of rough spots in the old law also was signed. Among the added powers given the board is the authority to require the installation of dams in trawler spawning water courses.

How You Can Make Hairs Quickly Disappear

(Helps to Beautify) Even a stubborn growth of hair will quickly vanish from the face, neck or arms after a single treatment with delicate. To remove the hairs make a stiff paste with a little powdered delicate and water. Apply to hair surface and after about 5 minutes rub off wash the skin and it will be left free from hair or blemish. To avoid disappointment, be quite certain you get real delicate.—Advertisement.

KING, AT HEAD OF HIS ARMY, INSPIRES IT IN BATTLES ALONG FRONTIER

By Associated Press. BULGARIA, via Paris, June 10.—The presence of King Victor Emmanuel at the front is having a tremendous moral effect upon the Italian troops, according to reports reaching the capital from all sections of the battle line. His Majesty has visited every zone where fighting is taking place, which has meant the expenditure of a vast amount of energy on his part, as the line of advance of the Italian forces is exceeding 100 miles and he frequently has climbed to fortresses situated upon lofty peaks along the frontier. Much of his traveling has been done on horseback because roads are lacking on a considerable portion of the front. The King is isolated by his troops.

Queen Helena, during the absence of the king from Rome is giving up all her time to philanthropic and relief work. She is appearing personally the making of supplies for hospitals. The little princesses are said to devote their energies to making sacks for neutralizing the effects of gas attacks used against the Italian forces. Crown Prince Humbert, situated most of the time, leading farwell to troops on their way to the front.

Bulletin des Armees Publishes Documents

By Associated Press. PARIS, June 10.—A series of documents, principally orders issued by General Joffre showing how preparations were made for the battle of the Marne, is published by the Bulletin des Armees. The Bulletin says, together with delays occasioned by the necessity for reinforcing and completing the British army as well as transport difficulties accounted for an exodus from Paris, forced part of the troops sent from the east to Manourville to detract further south than was at first intended.

Everything had been arranged as General Joffre desired by September 10, and he gave orders for a general attack on the morning of the 9th. These orders, which are reproduced in the Bulletin, give in detail the part each army was to play.

Wireless Messages "Caught" by Device

By Associated Press. PARIS, June 10.—A report issued by Admiral Thaon di Revel, chief of the Italian naval staff, shows that Austrian wireless messages are intercepted regularly by the Italians, says a special dispatch from Rome. The Italians have been enabled to obtain this information, which is of immense military value, by the use of a new device invented by Guglielmo Marconi. The device is said to make it impossible for the Austrians to intercept Italian messages.

RUSSIA READY TO SUE FOR PEACE, SAYS SLAV

SAN FRANCISCO, June 10.—That the Russian Government virtually concedes its defeat in the present war and is ready for peace was the statement made last night by Peretz Hirschbein, a Yiddish dramatist of Russia, who is making a tour of the world and arrived in San Francisco yesterday. He is staying at the Hotel Sutter.

"The Pan Slavic dream," Hirschbein said, "has been shattered. Russia realizes now that it will not succeed in uniting all the Slavs. The Russian Government has nothing to expect from this war beyond the right-of-way on the oceans. If it does not get that it will not only sue for peace but it will break away from the Allies."

Hirschbein said that Germany has practically won the war already. It is in the enemy's territory on all sides and she has the ammunition with which to stay entrenched in that territory.

To-night Hirschbein will lecture in La Boheme hall, 1530 Ellis-street. His subject will be "Life and Literature." Sunday he will lecture in the same place on "The Drama and the Theater."

GIRL IN SLEEP FALLS TO DEATH

Dispute With Friend Is Held Responsible Indirectly for Accident.

SAN FRANCISCO, June 10.—After falling asleep while sitting on a bench of a rear porch in the home of 1219 Market street, Miss Helen Hill, 24 years old, employed at the 49 camp at the exposition, fell backward to the sidewalk, a distance of thirty feet this morning and is in a precarious condition at the General Emergency Hospital. A quarrel with another young woman in the club rooms was directly responsible for Miss Hill's accident.

Miss Hill resides at the Essex Hotel, Turk and Larkin streets, but instead of going home last night went to the club headquarters, a place frequented by exposition employees. Sometime after midnight she became engaged in an argument which resulted in her fleeing from the reception room and taking refuge in a rear apartment. The place was little larger than a "box." She locked the door to prevent her opponent from reaching her, and opening the window, sat on the sill. She supposed she must have fallen asleep because she remembers nothing more until she was picked up in a semi-conscious condition and revived at the hospital. She suffered an injury to her spine and possible internal hurts.

EXPERT URGES TRIMMING OF BUDGET

Prof. Cubberley Recommends Dropping Fifteen Educators and Saving \$18,000.

Fifteen members of the school department will be dropped and a saving of \$18,000 effected if the recommendations of Professor E. P. Cubberley of Stanford University, an educational efficiency expert, are adopted by the Board of Education.

Professor Cubberley, who is making an investigation of the department, has tendered a verbal report to Superintendent A. C. Barker, but his written report will be filed with the board some time in the near future. Other recommendations for the improvement of the efficiency of the department are suggested.

Reorganization of the domestic sciences and art and manual training courses in the elementary schools is suggested by the expert. He endorsed the proposed plan of Superintendent Barker that the work in these departments be handled by the regular teachers instead of special teachers giving instruction only in these branches.

In the investigation of other branches of the school department he found that no position was unjustifiable. The salaries paid to the various teachers were not higher than those of other cities of Oakland's size. In general the school department was given a clean bill of health. Comparative cost of operating the Oakland school department with Los Angeles and San Francisco has been shown by Professor Cubberley in a table which he has prepared, on a percentage basis, as follows:

Board of Education, business office—Oakland, 1.15; Los Angeles, 2.5; San Francisco, 1.85.
Superintendent's office—Oakland, .52; Los Angeles, 1.04; San Francisco, .82.
Superintendents—Oakland, 2.33; Los Angeles, 2.89; San Francisco, .92.
Principals—Oakland, .515; Los Angeles, .74; San Francisco, .53.
Teachers—Oakland, .619; Los Angeles, .489; San Francisco, .701.
Other expenses—Oakland, 4.11; Los Angeles, 2.73; San Francisco, 1.26.
Operation—Oakland, .55; Los Angeles, .54; San Francisco, .72.
Maintenance—Oakland, .91; Los Angeles, 1.29; San Francisco, .579.
Auxiliary agencies—Oakland, 2.44; Los Angeles, 1.78; San Francisco, .85.
Reports of San Francisco and Los Angeles for 1914-15 are not available.

Praises American Missionary Workers

LONDON, June 10.—Viscount Bryce, speaking at the annual meeting of the British Syrian Mission last night, paid a tribute to the methods of American missionaries of devoting their energies largely to education and medical work.
"All the interventions of the European powers in Syria," he said, "have not done half as much good to the inhabitants of Turkey, Christian or Mussulman as has been done by the American missionaries."
Discussing the future of Syria, Viscount Bryce said:
"I am sure that the Turkish regime will never be re-established."

Hungarian War Loan Quarter of Billion

ZURICH, Switzerland, via London, June 10.—An Austrian loan commission, it is said, has decided to leave the time allotted for subscription for the second war loan open indefinitely. The Hungarian loan closed with subscriptions of 1,000,000,000 crowns (\$250,000,000). The emperor has increased his holdings in war loans by subscriptions of 5,000,000 crowns (\$1,250,000) to both Austrian and Hungarian loans.
The Koenigsgrat Credit Loan Bank is reported to have received cash liabilities of \$3,000,000, owing to losses sustained as a result of the war.

Demands Reparation From General Villa

EL PASO, Texas, June 10.—H. C. Myles, British vice-consul, telegraphed General Villa today demanding punishment for the recent killing of four and the wounding of one British subject at Tampico. Myles also demanded compensation for the loss of life and property, and contained a demand for reparation.

2 Drops of "GETS-IT" Out Comes the Corn!

It's the World's Wonder: Never Fails. You'll make goo-goo eyes at your feet, after you use "GETS-IT," and you'll find the places where those blistery corns used to be, just as smooth as your cheek.

"How Wide is a 'GETS-IT' Foot? Well, a Good Deal Over 2 Feet!"
There's no corn or callosity among the millions of feet in the world that "GETS-IT" will not remove—there's no escape. "GETS-IT" is the new way, the simple, common-sense way. It does away with greasy ointments, salves, pads, cotton rings, harnesses, knives, scissors, razors, files and the limping and painful pigeon-toe walk of so many corn-plagued people. All you do is put 2 drops of "GETS-IT" on the corn shrivels up—and good-bye. Nothing else in the world like "GETS-IT." Millions are using it. There's no pain, no trouble, no changing shoes because of corns.
"GETS-IT" is sold by druggists everywhere. See a bottle of sent direct to E. Lawrence & Co., Chicago. Sold in Oakland and recommended as the world's best corn cure by The Owl Drug Co.

Captain of Cruiser Is Caught, Disguised as Ship's Cook, Reported

PARIS, June 10.—The captain of the German converted cruiser Prinz Eitel Friedrich has been arrested while disguised as a cook aboard an Italian destroyer, the Albatros, dispatched to the Aegean Sea.

NORFOLK, Va., June 10.—Captain Friedrich recently returned from a leave of absence and now is aboard the Prinz Eitel Friedrich at the Norfolk navy yard.

NORFOLK, Va., June 10.—At the navy yard here, where the Prinz Eitel Friedrich is interned, it was said today that Captain Friedrich had been away on leave for about a week. He is now on a two-week leave and his whereabouts is not known to the navy yard officials.

TWELVE HOURS ON TOP OF FLAGPOLE

Steeplejack Announces Many Stunts, Including Snooze in Upper Air.

Can a man sleep on top of a flagpole? It's as easy as the solution of the unemployed problem, according to Bob Simpson, sensational steeplejack and self-styled solver of the unemployed problem. He is going to prove it tomorrow night, when he declares he will sit on the top of the flagpole on the Security Bank Building for twelve hours. He says he will stay there all night and miss no sleep, at that.

This is the first of the half-raising stunts he is attempting by the daring climber of poles and walls, aerobically and quickly escape artist. He will ascend the flagpole tomorrow at midnight and will come down at noon Saturday.

Then begins his first of the unemployed problem. Locked in a room in the Hotel Crellin, without clothes, he will undertake to earn enough for his clothes and the price of a meal before appearing at the Columbia Theater at the beginning of the performance, at 8 o'clock Saturday. He will appear on the stage in the clothes he has earned and count his money before the audience.

The next day, being Sunday, he won't earn his living, instead, he will go up in a balloon and attempt to loop the loop in a parachute. Monday he will free himself and earn his living again—and every day he will do the same thing. He will do it differently each day—and never will accept pay for anything he advances or take anything he has not earned.

The first "Escape," Saturday noon, will be under the eyes of a committee he has appointed consisting of George Fitch, manager of the Columbia Theater; Edward Smith, Charles Simpson; Louis H. Hall, advertising man; J. W. Preston, publicity expert and B. S. Sanders, editor of the San Leandro Standard.

Under the eyes of the committee he will be stripped and locked in his room from then on he must use his wits as best he can.
Simpson, better known throughout the East as "Daredevil Bobbie," the steeplejack, will repeat the same sensational acts before the thousands when he ascended the flagpole of the new Advertising Building in Chicago. Upon this occasion Bobbie stood upon his head for three minutes on the cornice of the building 50 feet above the street paved with a 30-mile gale that blew over the city throughout the day. He then climbed to the top of the flag pole 90 feet above its base and performed a series of death defying stunts ending in a drop from the cornice of the building to the sidewalk without the aid of a life net or parachute.

Ballot Stuffing in Club Election Denied

LOS ANGELES, June 10.—Officers of the Los Angeles branch of the International Sunshine Society, a woman's organization, entered a general denial today to charges made in a suit filed in the superior court that they had stuffed the ballot box in a club election, and did other things in contravention of the objects and purposes of the society.

The rucus, as one club member characterized the incident, occurred at a meeting last month at which Mrs. Fern Tolley was elected president. The ballots in the box out-numbered the voters present. When this was called to the attention of Mrs. Charles M. Mendenhall, president, she declared the election legal.

The women in opposition thereupon brought suit.

Spanish Government Is Fighting Cholera

PARIS, June 10.—Announcement was made yesterday by Minister of the Interior Guerra, says a Havas dispatch from Madrid, that because of the numerous cases of cholera at Vienna the Spanish government is taking every precaution to prevent the spread of contagion in that country. Lazarettos provided with the most modern sanitary appliances have been erected, especially at Port Mahon, for the detention of persons who have contracted the disease.

HUNDREDS MOURN DEATH OF BANKER

The following resolution was passed at a meeting of the Board of Directors of the First National Bank here on Tuesday:

Whereas, The Board of Directors of the First National Bank of Oakland has learned this day with very great regret and deep sorrow of the death of our esteemed and valued associate, Mr. L. C. Morehouse; and
Whereas, For a period of thirty-three years Mr. Morehouse has been connected with this bank as a director, and has, through all the period of our acquaintance and association, by his many character, his sound judgment, his uprightness of life and his many lovable qualities, been an endearing friend to each and every member of the board, and has made for himself a warm and endearing place in their hearts, as a friend, counsellor and associate in an unusual degree, and has received and maintained our confidence, friendship and affection.
Resolved, That in the death of Mr. L. C. Morehouse this board recognizes the great loss which this institution has suffered in being deprived of his valued services and advice, and that a sense of personal loss in the removal from our number of one most highly esteemed for his many virtues of mind and heart, and that we severally personally deplore his death.
Resolved, That this resolution be spread upon the minutes of the board, and that a copy thereof be sent to members of the family of our deceased friend and associate.

GREAT CROWDS AT COUNTY DAY

Business Suspended as People Enjoy Holiday at the Exposition.

(Continued From Page 1)

At the County Day, a program of the Exposition was scheduled for the afternoon and day. The program was the same as that of the Exposition. The program was the same as that of the Exposition. The program was the same as that of the Exposition.

This evening King Zowie and Queen Zowie, who were the main attraction of the day, were the main attraction of the day. They were the main attraction of the day. They were the main attraction of the day.

LAND AT MARINA

Their Royal Highnesses will land at the Marina from the royal barge at 5:30 o'clock this afternoon. They will direct the course of the parade. They will direct the course of the parade.

Special fireworks and an illuminated flight by Art Smith will also be features of the evening.

Judge Donahue, in his address, said: "Alameda county has not a particle of jealousy in its heart. It is not a county of individuals, collectively and enthusiastically, and with our whole hearts, for the success of the Panama-Pacific Exposition, and the great growth and glory of San Francisco. No community can thrive in this progressive age unless it helps and is helped by other communities."

"The nation is made up of states. The gain and the honor of any state is the gain and the honor of the nation. The gain and the honor of the nation is the gain and the honor of the world. The gain and the honor of the world is the gain and the honor of the universe. The gain and the honor of the universe is the gain and the honor of the God."

Former Secretary of Bryan Passes Away

ALBUQUERQUE, N. M., June 10.—Harvey B. Ferguson, 57, former congressman from New Mexico, who recently resigned as private secretary to William J. Bryan, died at his home here today of apoplexy. Ferguson served as delegate in Congress from New Mexico in the fifty-fifth congress and was the first congressman from New Mexico following admission of the state in 1911. He was re-elected to the sixty-third congress in 1912 and defeated for re-election in 1914, and at the conclusion of his term became private secretary to Bryan, a post he held only a few months.

CHRISTENING PARTY TO CALL ON PRESIDENT

PHOENIX, Ariz., June 10.—At the request of Secretary Daniels that the party passing through Washington on the train carrying Miss Esther Ross, sponsor, and other Arizonaans to attend the christening of the battleship USS Arizona, will be routed via Washington instead of Niagara Falls. The train leaves here June 14 and will arrive at the capital June 18.

BOY, TREE, HOSPITAL

John Smith, a school boy, fractured two ribs and incurred internal injuries when he fell from a fruit tree in the yard at his home, 547 Seventh avenue, Alameda. He was taken to the Fabiola Hospital and is under the care of Dr. E. A. Major.

At a meeting of the Berkeley Manufacturers' Association, Tuesday evening, it was unanimously decided to give employees a full day holiday. The industrial interests of the city will also be represented by a float in the parade on the grounds. Ladies of the city have taken great interest in the celebration and, as individuals and organizations, will be out in force.

HAYWARD DESERTED FOR ALAMEDA CO. DAY

HAYWARD, June 10.—This city is peculiarly deserted today, hundreds of the residents leaving for the Exposition by special train and cars. Energetic action on the part of a number of the citizens enabled this city to make a creditable showing in the parade, although the Haywards were gone without a parade float this week. Several floats are representing Haywards Industries. The local exodus was aided by many people from the surrounding agricultural districts, who were represented in the parade by a Hayward display at the Fair caused wide comment this progressive community is again taking a distinctive part.

Inland towns, including Niles, Livermore, Pleasanton and other county centers are represented in the parade by floats and decorated autos, the decorations showing taste and originality and several being of striking design. Perhaps no previous occasion for years has there been such an emptying of city-wards of county district populations.

EVEN FIREMEN LEAVE FOR THE EXPOSITION

SAN LEANDRO, June 10.—Almost every one who can get around is at the Exposition today. So complete is the exodus that Deputy Marshal and City Clerk Charles Homer, one of the stay-at-homes, speculated whether in the event of a fire there will be a sufficient number of volunteer firemen to man the big auto truck, even the city marshal, being represented in the parade by a float.

At an early hour the float and decorated automobiles got into line, forming an imposing parade in themselves as they whirled down East Fourteenth street to the steamer. All agreed that the float of the Alameda County Exposition was the most attractive of the San Leandro floats was that from which the members of the El Centro Parlor, Native Daughters of the Golden West, distributed cartons of cherries among the Exposition crowds. The city fathers, officials, social, improvement and educational and commercial organizations are represented in the local contingent.

Berkeley Holiday Is on While City's People Attend Exposition

BERKELEY, June 10.—With even the postoffice closed for the greater part of the day, Berkeley today is turning out an immense throng to the Alameda county day exercises at the Exposition. The streets are closed and all of the factories on the waterfront have declared a holiday.

BALLOONS FAIL TO START IN RACE

Mishap Disables Three Big Gas Bags at Opening of Contest.

The starting of three balloons, the contest of which was planned for the morning of the day, was postponed because of a mishap. The balloons were disabled at the opening of the contest.

A stiff wind played havoc with the other entrants. "The Venice," piloted by Leon Brooks, was inflated and ready to ascend, when the wind tore a huge hole in the bag. Undaunted by the mishap, Brooks decided to make some kind of an ascension so he let the man holding the bag to let go. He was raised thirty feet in the air, called a short duration over the bay, when the gas escaped and the balloon plunged into the water.

Crowley launch rescued Brooks and he was given treatment for submersion at the exposition hospital.

"The California," piloted by Harry Harrison, was also disabled. It was ripped open by the wind and put out of the running. He immediately started repairs with the idea of making an ascension Thursday.

Clarence Drake, whose balloon, "Queen of the Pacific," had been also recommended by the wind, decided to accompany Harry Harrison in the contest.

At 1:50 o'clock the word to let go was given and Harrison's big balloon soared straight into the air and was carried in a southeasterly direction as it ascended to the one-thousand foot mark.

Harrison, the successful one to start, took a balloon from San Antonio, Texas, to Arkansas in 1910, a distance of 650 miles.

Mrs. Unger, wife of the man who was to participate in the race in the balloon, "The California," saw Brooks drop into the bay and promptly fainted, fearing that the man would happen to her husband. When she was revived she called for her little daughter, Vera, who had disappeared. After a lengthy search the child was found asleep under an overturned balloon basket.

OPPOSES PETITION OF UNITED R. R.

Asst. City Attorney Charges Company Runs Cars on Market Street Tracks.

SAN FRANCISCO, June 10.—In an opposing motion filed today in the United Railroads case, the assistant city attorney charged that the United Railroads was running cars on the Market Street tracks.

Stearns stated that the city had no right to run cars down the tracks which it seeks to restrain the city from using. The franchise on those tracks was granted to the Sutter Street Railway Company and not to the United Railroads.

Stearns further contended that the loop which the United Railroads claims the city has not the right to use for certain cars, is constructed on state property, and that permission to construct the loop was obtained through interference of city authorities. This permission is revocable at the will of the state.

BRYAN MAY BE ORATOR AT FAIR

Elaborate Ceremonies Are Planned for Fourth at Exposition.

TRIBUNE BUREAU, Panama-Pacific Exposition, June 10.—An effort is being made to have William Jennings Bryan deliver the Fourth of July oration at the Exposition grounds. Frank Burt, special events man at the Exposition, appearing before the day 4th committee yesterday, stated that for the orator of the day he would almost promise "a man now before the public eye, famous internationally, who stands for peace."

The Fourth of July committee will make the parade to be held on Monday, July 19th, a keynote for peace. The peace parade is the idea of Mrs. C. S. Allen, vice-president of the committee. The committee added a motion to the effect that it be the sense of the committee that the parade, the music, the orations and all the features carry out the idea of peace.

The Exposition will not assist financially after June 15th, those for whom the Exposition Company. Some of the attractions affected by this mandate are the 101 Ranch Wild West Show, Toyland, Town and Country, and the Sells-Wiggin Show. These shows had been given open free to Exposition visitors, salaries having been assured by the Exposition Company.

Danish Ladies' Day was observed at the Danish pavilion yesterday. The building was crowded throughout the afternoon and a program of merit was rendered.

In honor of the delegates of the National Electric Light Association, a special program of fireworks and illumination was given last night on the Marina. The fireworks display was opened with a salvo of bombs. There were many huge set pieces, one of which was "Welcome to the National Electric Light Association."

Saturday will be Monterey County Day here. Delegations will attend from Monterey, San Miguel, Salinas, Carmel and Pacific Grove. Ten thousand cartons of strawberries will be given to Exposition visitors on Monterey Day.

URGES PURCHASE IN OPEN MARKET

City Official Declares Contracts for Lumber Caused City Loss.

Purchasing Agent A. T. Kales has recommended that instead of accepting the lowest bid for lumber to be supplied to the city during the coming fiscal year, the city shall buy in the open market. His recommendation, with the bids received, has been referred to Commissioner of Streets W. J. Bacus.

"It is foolish to pay an excessive price for material by contract," Kales said, "when the same material can be obtained in the open market for less money. The contract makes possible purchase in the open market, and it would be well if the council would permit me to take advantage of conditions as they stand today."

"I note the lowest bidder quotes a price of \$11.75 per M on merchantable pine, and \$14 per M on merchantable redwood. At no time during this fiscal year has the open market quotation on pine reached the figure at which we contracted last year (this also applies on redwood), so that the city has suffered a considerable loss through the contract in effect, this contract having been placed at a time when the combination was in effect—all three bids received by the council being identical the same. My recommendation at that time was to the effect that all bids be tested and that we purchase in the open market."

"It is my contention, based upon investigation, that there is no prospect of lumber being as high as the lowest bid during the fiscal year. In view of the fact that the local combination of lumber dealers has been dissolved and there is no particular demand for lumber, this condition is prevalent on the whole Pacific coast as well as the eastern markets, and furthermore such institutions as the State Board of Control, the county of Alameda and other municipalities are arranging to buy their lumber by contract. This same material can now be bought in the open market at per quotation attached herewith: Pine \$10 per M and redwood \$12.50 per M.

On the basis of this showing, I would recommend that all bids be rejected and that the council authorize the purchase of this material in the open market."

WOMAN SUICIDE WAS NEWARK NURSE, DECLARED

SAN JOSE, June 10.—The body of the unknown young woman lying in the San Francisco morgue, who killed herself a couple of days ago in a Fulton-street rooming-house, in San Francisco, was identified here yesterday as that of Miss Frieda Weiss, of Newark, N. J., a trained nurse, who had been working in the county hospital here for nine months.

The identification was established by two nurses of the hospital who happened to be passing a hat store window here yesterday, where a post-mortem picture of the deceased woman had been placed. Both nurses immediately started sobbing. They refused to give their names.

The superintendent of the nurses, Miss Jessie Melkie, was sent to San Francisco last night to identify the body positively. Miss Weiss has a brother in Newark. Little was known here of her life. She made no friends. It is stated, however, that she was melancholy on account of the suicide of a sweetheart.

RAN WOMAN DOWN; MUST PAY \$7500 IN DAMAGES

SAN FRANCISCO, June 10.—E. A. Fiske, prominent resident of Burlingame, who achieved considerable notoriety through being arrested last year as a suspected train robber and who proved his innocence, must pay \$7,500 damages for running down Mrs. Abbie Stoddard in his automobile recently. Fiske was speeding to the Hall of Justice to get out for Bertram Nixon, millionaire mine man of Nevada, and son of the late U. S. Senator Stephen M. Nixon when the accident occurred. Nixon had been arrested for speeding. Mrs. Stoddard died of her injuries.

WANTS UNION OF WORLD FOR PEACE

International Police Scheme Is Supported by Senator Lodge.

By Associated Press. ALBANY, N. Y., June 10.—Senator Henry Cabot Lodge, speaking yesterday afternoon at the commencement exercises at Union college, asserted that world peace would never be maintained without strong force and advocated a union of nations with international police, affording such force as would be necessary to maintain the strong individual state.

"Nothing will be accomplished by the people who are sheltered under neutrality, gathering outside the edges of fighting and from comfortable safety turning the combatants to throw peace because war is filled with horrors and women are the mothers of men," he said.

"The nations and the men now fighting, as they believe, for their lives and their freedom and their national existence, know all this and cannot be deterred by the loss of life and property. They are fighting for the sake of the world."

"It would be as futile," Senator Lodge said, "to abolish armaments as it would be to abolish fire, because fire sometimes causes great catastrophes, with their attendant loss of life and property. It is necessary to have armaments, but they must be used for the sake of the world."

"The reason lay deeper than armaments. It was the desire to use them wrongly, for aggression. A general reduction of armaments, he said, 'should be sought with earnestness, but for one nation to disarm and leave itself defenseless in an armed world is a direct incentive and invitation to war.'

"Nations must unite," the senator said, "as men unite to preserve peace and order. The great nations be the soundest so as to be able to say to any single country, 'You must not go to war.' And they can only say that effectively when those dealing with them know that the force which the united nations place behind peace is irresistible."

"I am certain that it is in this direction alone that we can find hope for the maintenance of the world peace and the avoidance of needless wars."

The college conferred baccalaureate degrees upon four civil war veterans who stopped their studies to join the Union army more than half a century ago. The degrees were those they would have won had their studies not been interrupted.

WOMEN'S PRESS ASS'N. TO HONOR J. D. PHELAN. Members of the Pacific Coast Women's Press Association are planning a reception in honor of James D. Phelan, United States Senator from California, that will be held on the evening of June 15 at the Forum Club rooms, 525 Sutter street.

Miss Ina Coolbrith, the distinguished poet and president of the organization, will be assisted in planning the event by her executive staff.

During the evening an elaborate musical program arranged by Mrs. Charles Smith will be contributed by a number of well-known local artists, including Mrs. Florence Le Roy Chase, soprano; Mrs. Lillian Stuart, contralto; Foster Krake, baritone; Joseph Jacobson, pianist; Mr. and Mrs. Cedric Wright, violinist and pianist.

TIRE-CHANGERS SHOW SPEED IN BIG CONTEST

By J. A. HOLMAN. Surprising interest in the most athletic contest of the automobile men was shown at the tire-changers' show at the Exposition grounds. As an added attraction, the tire-changers' show was promoted by the automobile dealers promoted it.

The entire house was sold out. Not a seat was to be had after 7:30. The line of automobiles in front and in the rear of the house was the largest in the history of this playhouse. It extended for a square block on each side of the house. Every automobile man in the country, it seemed, was present and brought with him as guests from one to three or four of the same fraternity from outside points.

All of the tires were rapidly decorated. Serpentine was much in evidence, so, too, were toy balloons. A real good time was sought by the motoring element and they had it.

CONTEST LIVERY. During the tire-changers' show, a contest was staged. Seventeen contestants, arrived in a large circle, awaited the signal from Starter Bob Martland. At the pistol shot, two boys to land the inner tube properly, deflated over to the judges were the winners. The contest was won by John Gordon, C. A. Muller and Harold McClellan, W. L. Laughlin.

PRISONER GOES TO FUNERAL OF WIFE

"Broadway Bandit" Is Taken From Jail to Attend Sad Rites.

Iron bars and technicalities which prevented the dying request of Mrs. Nettie C. Parker to bid farewell to her young husband, Raymond Parker, from being fulfilled last Sunday, were swept aside today when Parker was released from jail to attend the funeral of his wife.

Pathos mingled with the stern provisions of the laws too late for Parker. Parker died at the County Infirmary Monday morning, leaving behind her husband, a four-month-old baby daughter.

With one arm manacled to a deputy sheriff and the other clapping the blue-eyed mite of humanity, Parker was taken to the funeral home where the last rites were being performed. Then he gave up the baby to other arms and returned to his cell, fearful and downcast.

Troubles that commenced when his girl wife fell ill with a lingering disease, and ended in a heart-breaking death, Parker was left with a young child and a young wife to support.

It developed that in their last robbery at Ninth and Broadway, the pair had shown consideration for their victim, trying him carefully and taking only what they thought to be the lottery company's funds. The boys have asked for probation.

The Federal laws being somewhat different in their attitude towards prisoners, E. E. Varza, held in the county jail for alleged counterfeiting, was taken to the County Infirmary Monday morning to attend the funeral of his father under order of United States District Judge Maurice T. Duelling.

NOVEL POINT RAISED IN UNITED R. R. CASE. SAN FRANCISCO, June 10.—Attorney for the city made a novel point today when he argued that the United Railroad had no right to bring an injunction suit against the city in connection with the proposed street car line, which was being controlled by the Sutter street, railway company. The latter corporation has also brought an action in an effort to compel the city to remove the cars from the Sutter street road.

CONFERENCE ADDRESS. By Associated Press. ALBANY, N. Y., June 10.—The seventh annual conference on city planning, in session here since Monday, adjourned last night. The next meeting place will be selected by the next executive committee, among the members of which, chosen today, is W. Templeton Johnson, of San Diego, Cal.

CONVENTION TO MEET. TRIBUNE BUREAU, Panama-Pacific Exposition, June 10.—The Exposition Convention of the Hotel and Restaurant Employees International Union of America will be held in the Civic Auditorium beginning Monday, June 14, and lasting until the following Saturday. Several hundred delegates will be present.

O. K. TRANSFER OF 'PHONE FRANCHISE

SAN FRANCISCO, June 12.—The city is classifying the telephone system as a public utility. Yesterday the city council authorized the transfer of the telephone system to the Home Telephone and Telegraph Company within the city of San Francisco to the Pacific Telephone and Telegraph Company. The present franchise of the Pacific Telephone and Telegraph Company is that of the Home. The city is of the opinion that the Home system is good for thirteen years longer. Commissioners Charles Lavinian Gordon and John E. Elgeron dissented, declaring that they believed it was better to buy the system a franchise which was tainted in its inception with official corruption.

Under the terms of the compromise, whereby the transfer was first sanctioned, the city would have to appropriate \$1,000,000. Mayor Rohlf, the city assessor, to dissuade the appeal now pending before the Supreme Court involving the right of the companies to transfer the properties, and to permit the city to furnish the city with 1000 free telephones, to pay the city 1 per cent per month of the gross incomes from the Home system in use (an amount of approximately \$3700), to furnish certain central facilities for fire and to spread alarms to the city, to transfer to the city the old Pacific Company franchise.

The city also imposed the further con-

any future proceeding for rate fixing or condemnation by the city capitalize the same and agree to abide by all of the ordinances of the city relating to the construction of such facilities within the city. This compromise was made in November, 1914. In 1913 the city voted on two measures—one to acquire the city water works and the other for the acquisition by the city of the Home Company. Both of these failed to poll the necessary votes to carry them, although both got a majority of votes.

The Commission says in the opinion that it has considered certain actions of the Home Supervisors in 1906, when they granted the Home franchise, but "these matters happened nine years ago. The present Supervisors had full knowledge of the facts and the character of the act if the city required the consummation of the same arrangement. On the facts of the case we hesitate to substitute our judgment for theirs and to withhold our approval to the compromise arrangement which the Commission has taken care and thought have entered into."

"An Old Man at 40"

How often you hear that remark! How many such men there are! And how needless it is!

Wrong food is the big cause.

When one feels old at **40** the first thing is to correct improper diet. The main fault with the dietary is often a lack of the vital mineral salts in food. Without these mineral elements old age steals on rapidly.

To meet this very condition a food was devised which supplies those mineral elements such as phosphorus, iron, sulphur, etc.

That food is

Grape-Nuts

Made of whole wheat and barley, this delicious food retains all the nutriment of these grains, together with the priceless mineral elements—notably lacking in white flour foods—which the system must have to build and maintain vigor and elasticity of body, brain and muscle.

One can avoid this "old-age-at-40" business by proper eating and living.

ONE HUNDRED MILLION BEHIND THE PRESIDENT.

Not until tomorrow shall we have in its full text the answer of the United States Government to the note from Berlin of ten days ago, the note in which the President's demand for observance of the ordinary rules of war in dealing with neutral and unarmed vessels was by evasion denied. This answer is now in the hands of the German government. But though the text is withheld, we have a summary which it is safe to accept as authoritative.

The President stands unalterably for the rights of the United States as defined in previous international understandings and as fixed by the traditional practice of the civilized world. The President is not opposed to investigation nor will he decline diplomatic discussion of cases in dispute between Germany and the United States. But pending investigation and discussion he demands that in the interim the lives of American citizens shall not be jeopardized and that the United States shall not be required to yield any of its rights while investigation and discussion are under way.

These demands are sound. They call for nothing not essential to national dignity and requisite to the security of our people and our interests.

There can be no question as to the sentiment of the American people with respect to the President's position as above defined. Men, women, Republicans, Democrats, everybody and anybody under the inspiration of American sentiment will stand back of the President in these demands and uphold his hands.

Only one man has found it in his heart—or in his swollen vanities—to strike from behind a blow, at the unpraised hand of our chief executive and that man is of all men the one he had most reason to count a supporter and a friend. We are a hundred millions in support of the President. Against the President Mr. Bryan stands alone.

A WORD TO PRESIDENT WILSON.

There is in our country one man who stands pre-eminently a master alike of the intricacies and the simplicities of international law as defined in agreements and usages. That man likewise stands pre-eminent in his demonstrated capacity in international dealings. Of course, we refer to the Hon. Elihu Root, former United States Senator, former Secretary of War, former Secretary of State.

There is a vacancy in the Secretaryship of State, the office to which falls the duties of international diplomacy. To this great post, now vacant, President Wilson ought to call Mr. Root, the one supremely qualified man. It is of no consequence that President Wilson is of one political party and Mr. Root of another. In our foreign relations there is but one party in the United States at this time. The question as related to the Secretaryship is not what a man's views may be with reference to this, that, or the other domestic concern. The supreme interest and the issue of the time relate not to partisan or controverted matters, but to our national interest and our national honor.

"Young gentlemen," said the head of a great American school a few years back in handing their diplomas to a class of medical graduates, "as you go forth into the world I give to each of you this admonition: Never permit yourself, as you would value your character as a man and a gentleman, to put self-interest, ambition for professional distinction, least of all individual vanity, before your duty to your patient. I admonish you never permit yourself in any crisis through any exercise of personal or other feeling to withhold from your patient the best you may give him. In any emergency, if there be available a man who may do with the certainty of assured skill what you may not do with equal certainty, call to your aid and to that of your patient that man, no matter whom he may be, what your personal feeling about him may be. A doctor is bound by the obligations of his profession to give his patient whatever in his judgment may be best for him. I admonish you to hold fast to this principle, to bring your practice to it with mainly subordination at all times and all ways of self and the appeals of self-interest."

Sound counsel this. And it is as applicable to the President of the United States as to the youths to whom it was addressed. When the interest of the nation is at stake it is small matter if the man of highest skill may be a Democrat, or what not. It is a time to bring into the government the very best man for the work to be done. So we say to President Wilson: You will illustrate your patriotism, the largeness of your mind, your sense of patriotic responsibility, by calling to the chair of State the Hon. Elihu Root.

During the enactment of the pageant of peace at the exposition Saturday the company of sailors from the battleship "Oregon" scheduled to represent the arrival of Commodore Perry in Japan were fifteen minutes late in getting ashore. The pageant proceeded without them and their place was taken by Japanese kindergarten children. So far we have not heard that the incident is to provoke a new discussion of the inefficiency of the American navy.

or is likely to result in a diplomatic impasse in the relation between this country and Japan.

MR. BRYAN.

At many times and in many ways Mr. Bryan has illustrated a surprising insensibility to the obligations of convention and propriety. His lapses have often been amusing and sometimes pathetic in their exposure of his lack of breeding, his deficiency at the point of taste, his love of applause and his greed for money. But however ridiculous a figure Mr. Bryan has made of himself in times past, he has until now done nothing to bring into question the patriotic soundness of his character. Very much of a quack, and a bit of a faker, with suggestions of the blather-kite—much of all this part of the time, some of it all the time, Mr. Bryan has appeared to be. But however vagarious in his conduct, however mistaken in his political ideas, however stupid in his reasonings and however flamboyant in his expressions, nobody has ever thought of him as at heart other than a sincere lover of his country and a dependable factor in her basic strength. Whatever influences have been under the hand of Mr. Bryan—and they have been profound and long sustained—have until now been directed not always wisely but unflinchingly under the inspiration of patriotic sentiment.

But now we see Mr. Bryan, after magnifying a point of policy to the degree of a serious issue of principle, abandoning the administration of which he has been a part, thus giving us a picture with which that administration is at difference the impression that the American government is a house divided against itself, and that it stands without approval and support of a considerable section of its own people. By withdrawing from the administration at this time, Mr. Bryan gives aid and comfort to a possible national enemy and at the same time he weakens the hand of that constituted authority of which he has recently been, nominally at least, an important factor. Regarded in this light, Mr. Bryan's resignation is an act amazingly at odds with every normal instinct of patriotism. It is an act, if not of calculated enmity to the government, at least one tending to weaken its hand in a crisis and to yield advantage to a potential adversary.

More amazing still than Mr. Bryan's abandonment of the government at such a time is the statement of "reasons" given out in the very hour of the President's dispatch of a second note to Berlin. This statement is before the public and need not here be rehearsed. It is enough to say that it is an appeal to the American public calculated to divorce from the government in its diplomatic dealing with Germany the favor and support of public sentiment. Its purpose is to weaken the hand of the President, and its effect—if it shall have the effect which Mr. Bryan obviously desires—must be to break down that popular backing which is essential to the carrying forward of policies upon which the government has definitely determined. It is in the nature of backfire upon a government which needs the help of all the forces and powers which should abide in consolidated national spirit.

Mr. Bryan, therefore, we say it sadly, thus becomes an enemy of an administration which has endured too patiently his many and embarrassing vagaries. He assumes a role at all times unpleasant and questionable at the point of patriotism, one which in a crisis comes close to the line of treason. It is a pitiful and a shameful spectacle.

The motive unhappily is as little commendable as the means through which it is sought to be worked out. Weighed and analyzed it may be summed up as a dismemberment of personal vanity. Mr. Bryan, as Secretary of State, has negotiated a series of what he styles peace treaties. He has entered into several international engagements of questionable validity and effectiveness, and in connection with this procedure has arrogated to himself the character of an apostle of peace. The assumption is extravagant, absurd. Yet Mr. Bryan has so taken to heart the self-satisfaction incident to his recent work as to make him blind and deaf to the dictates of official loyalty and to the larger obligations of patriotic citizenship. He has preferred in a national emergency to nourish his vanity in preference to sustaining his character as a lover and a supporter of his country.

THE COMMERCIAL VALUE OF HATE?

The people of Serbia are represented by emissaries of mercy in this country who tell our manufacturers of farming implements that the utensils of the Serb farmer has been destroyed and that they must have donations of farming implements and machinery to enable them to till their farms and provide against starvation. After peace the Serb will not turn to Germany and Austria for their agricultural machinery, we are told, so now is the opportunity for the American manufacturers to lay the foundation for a big increase in trade.

Emperor William has barred out from the German theaters all works of living Italian composers. The paintings and sculptures of Italians have been removed from the art museums and laid away in the dark places. In Austria-Hungary the works of Italian artists have been destroyed. The Teutonic people cry treachery against their former ally and hatred is proclaimed for everything Italian.

Italy has already turned to the United States for many of the supplies she formerly purchased from Germany and Austria. This is, of course, due to the actual state of war between the countries but Italian economists say it means a permanent increase of trade between their country and the United States. That German goods will not be used by the Italians even after peace is declared.

So it goes throughout the world of belligerents. Enmity, hatred, the mad desire to destroy and circumvent and cripple, moves all Europe.

But how highly may the hate of war be capitalized as an asset of peaceful commerce? The industry and commerce of the United States should search out the answer to this question as early as possible. Is hate a thing of sufficient stability or reliability to build a great manufacturing plant or a steamship line upon? We think not. Nor is love, or any other human emotion. It is only ten years since the conclusion of the war between Russia and Japan, but they now are political, commercial and war allies. There is no insuperable difficulty apparent to a normal condition of affairs, based on the old economic and geographical condition, being restored in Europe within a reasonable time after peace terms shall have been agreed upon. American trade campaigns should be based upon the permanent conditions of peace rather than the abnormal demands of war.

Were it not for the fact that Mr. Bryan had not been doing much for his country and that his position had become so unpleasant we would say that he is a sorry sort of public servant to quit because he did not agree with his superior; that he had forgotten the first qualifications for being a good servant. It is safer, however, to have him out of the way. He did his best service by resigning.

VARIETIES

The Paper Back.
The return of the paper-covered novel is predicted by the head of a New York publishing house. The popular magazine, he says, killed the one-time popular yellow back and the movies are ousting the low-priced magazine. Now comes a desire for the old-fashioned picture novel. The fictionizing of moving picture reels seems to be a natural reversion to the dramatizing for the movies of great novels. The same elements are required for success in either, viz: a good story and coherent plot. A good many movie patrons feel that they would like to make in the course of the week the same kind of a very low key, soothing to the nerve system as the novel, and are continuous for hours at a time. If it were conceded that the whistling is necessary, and I do not concede it, then let the authorities compel them to have whistles with callous or artificial effects of a very low key, soothing to the nerve system as the novel, and are continuous for hours at a time. STATES OPPOSING HIGHER R. R. RATES

Briefs Filed Deny Decline in Revenues Claimed by Management.

WASHINGTON, June 10.—Briefs opposing increased freight rates on grain and grain products asked by the Western railroads were filed today with the Interstate Commerce Commission today by Clifford T. Moore and the committee of state railroad and public utilities commissions representing various southern, middle and northwestern states and Arizona, Nevada and New Mexico.

The argument denies fairly that railroad revenues have declined to a point where they can no longer make a profit on their investment, and declares that no allowance is made for improper charges against operating expenses the net operating revenues would be greatly increased.

The railroads, it is argued, are not entitled to make earnings upon investments which they have made "largely in excess of the requirements of traffic."

Taking the western roads as a whole, the argument holds they have not been losing revenues.

Increases in rates should not be granted, continues the brief, to carriers involved for the benefit of the weaker roads when it is not needed by the stronger roads.

The roads have failed to show that the proposed rates are just and reasonable, the brief argues, and the grain business of the roads shows a profit much in excess of the business in other commodities.

Street Car Employees Await Word to Strike

By Associated Press.

CHICAGO, June 10.—Strike of 14,500 employees of Chicago street car systems tomorrow night being today on the action of the two union committees at a joint conference.

The committees had under consideration the proposal to meet with President L. A. Busby of the surface lines to arrange for a plan of arbitration. President Busby made the offer of arbitration last night.

TORPEDOED U. S. SHIP AGAIN IN COMMISSION

SCILLY, England, June 10.—The American tank steamer *Guilford*, which was torpedoed by a German submarine off the Scilly Islands May 1, and for the damage to which the German government has offered to pay an indemnity, sailed from St. Mary's for Rouen yesterday under her own steam.

JANE ADDAMS HAS TALK WITH POPE

But Peace Plan Is Not Considered Opportune at This Time.

By Associated Press.

ROME, June 9, via Paris, June 10.—Jane Addams of Chicago, chairman of the pacifist committee appointed by the women's peace conference at The Hague to visit the capitals of Europe in an effort to hasten the end of hostilities, has left Rome for Madrid, whence she will go to France and Belgium. While here Mrs. Addams was received courteously by Pope Benedict, Cardinal Gasparri, papal secretary of state, Premier Salandra and Foreign Minister Sonnino.

Although the ministers of the Italian government listened respectfully to her peace proposals, they gave her little encouragement. She was received with greater sympathy, however, at the Vatican, where the pope has labored to bring about peace, but even there no secret was made of the fact that the present moment was considered scarcely opportune for such a movement as Miss Addams has undertaken.

She was told by Pope Benedict that he desires greatly the firmness and serenity of President Wilson. His holiness expressed the hope that the initiative for peace would come from America, and he pledged himself to support such a proposal with all the influence of the Holy See.

Obnoxious Perfume Sends Tenants Out of Office Building

SAN FRANCISCO, June 10.—That an unpleasant perfume of the most obnoxious and penetrating character had been uncorked on the second floor of the Pacific building last night and that in consequence today the tenants and occupants have been forced to flee their offices, was the statement made by E. J. Turner this morning in swearing to a malicious warrant for B. T. Hall.

Two bottles of valerian, the contents of which are said to put in the shade and in the obscurity of the dark ages fumes of the far-famed Chinese "stink-pot," were spilled on the floor and the odoriferous substance permeated every nook and cranny of the floor.

Turner is proprietor of a publishing company. Hall is a solicitor. There was a disagreement over commissions, and Turner alleges that Hall knocked over and broke the well-corked bottles. Judge Oppenheim issued the warrant.

SAW STUDENTS ATTEMPT THEFT

So Says Instructor in Annapolis Examination Scandal.

By Associated Press.

ANNAPOLIS, June 10.—Commander F. A. Traut, head of the department of Modern Languages at the Naval Academy, today said that he had seen the court of inquiry investigating irregularities in examinations, related a story which he said had been told him by instructor Washburn of the English department on the supposed actions of three midshipmen. Washburn said he had occasion on Christmas eve to go to his office. On entering the building he saw three midshipmen, one of whom was in the act of closing the door of the office of the department of Modern Languages. He halted them, he said, but they ran away.

The instructor reported the incident, but the men were not caught, and their identity is not known. Commander Traut said he had only indefinitely for weeks ago of the reported incident. The actual story was told him yesterday by Mr. Washburn.

Demands Prisoner From Matron at Point of Revolver

By Associated Press.

LOS ANGELES, June 10.—Pointing a revolver at the matron of the juvenile detention home, an unidentified man demanded early today that Jessie Hildely, a girl who had previously attempted to escape, be turned over to him. The matron told the man that the girl had been taken to the county jail. He then announced his intention of storming the prison. Guards were placed there, but the man did not appear.

The Hildely girl, with Sena Potvin, was captured at San Diego some weeks ago, after the two had run away from home. She swallowed some pills and her companion took poison while in the prison there.

After a stay in a hospital they were transferred to this city and placed in jail, where they started a riot several days ago among the prisoners.

INDICTMENT CHALLENGED BEFORE GRAND JURY

SAN DIEGO, June 10.—On the ground that E. C. Hickman, a member of the grand jury, had no right to be present during the grand jury investigation of a shooting affray of which he was an eye-witness, attorneys for Mrs. Mary L. Runkey asked Judge Lewis to dismiss the indictment returned against her. After argument and the examination of Hickman, as well as the foreman and secretary of the grand jury, Judge Lewis continued the case until Thursday. This is the second time within ten days that members of the grand jury have been called into court to testify concerning indictments returned by them.

Hickman, as a member of the grand jury, was present with E. T. Kierman when the latter attempted to take down a fence around a lot next to Mrs. Runkey's home at the foot of Laurel street several months ago. The claims of ownership were then under investigation by the grand jury.

In the presence of Hickman, Mrs. Runkey came out and fired a revolver at Kierman. She later claimed that the gun contained blank cartridges. The testimony showed that Hickman was present during the grand jury investigation of the shooting, and also was a witness before the grand jury, but it did not show that he took any part in the deliberations or voted on the indictment.

RICHMOND SUIT AGAINST SPRING VALLEY CLOSED

SAN FRANCISCO, June 10.—The suit filed by private citizens to compel the Spring Valley Water Company to serve a large section of the city in the Richmond district, was brought to a close before Superior Judge Deasy today. In a final argument Attorney E. J. McCutcheon, for the corporation, declared that as the city had begun a condemnation suit against the Spring Valley Water Company and had issued bonds to bring in the Hetch Hetchy supply, the concern was not justified in expending the \$45,000 necessary to extend its mains. He averred that they did not get the money back. Attorney Daniel O'Donnell for the plaintiffs, said that the increase of population which would follow the extension, would return the corporation its money ten times over.

"OAKLAND DAY" FOR MISSION CONGRESS, PLAN

Tomorrow, Young Women's day at the Congress of Missions is also to be an Oakland day, for the First Congregational church in San Francisco will be frantically gay with flowers gathered from this city's bougainvillee and gardens, while other blossoms from the same treasure-house will be distributed to the thousand delegates in the form of corsage bouquets.

Not only have nearly all the local flower societies generously but a group of very prominent local society women have robbed their grounds of their choicest blossoms. Among these are Mrs. F. H. Smith, Mrs. Philip Bowles, Mrs. J. H. Richardson, Mrs. Frank C. Havens and Mrs. A. H. Hills, all of whom own gardens that are among the city's most delightful spots. The flowers will be gathered under the direction of Mrs. Charles Lombard, and will be of every variety.

GRAND PRESIDENT TO BE RECEPTION GUEST

FRUITVALE, June 10.—This community will be represented by a large delegation to a reception to be tendered by the Laurean Council of the Young Ladies' Institute of Oakland to Miss Nellie Grant, grand president of the order, in the Sacred Heart hall, Fortieth and Grove streets, Monday evening. Grand officers from San Francisco will be present, as well as representatives from different councils in the bay cities. Miss Grant, who is from St. Louis, will pass her official visit and a program has been arranged in her honor.

RUSSIAN FUGITIVES IN DEATH'S SHADOW

Ordered Deported, Two to Be Shot for Desertion on Arrival Home.

SAN FRANCISCO, June 10.—Unless the mercenary band of Uncle Sam is extended to snatch them from the danger zone, Scholom Schewitz and Makia Imberg, two Russian fugitives, are liable to be put to death.

Both are now being held by the immigration authorities at Angel Island having been ordered deported and claim that their return to Russia will mean that they will be lined up and shot. At the outbreak of the war the two men fled from Kiev where they were neighbors and friends of Wolf Replins, the youth tried for ritual murder, whose predicament attracted the attention of the civilized world. They were liable to military service and ever if they are now returned to their native land they will be executed for desertion. They first fled to Kobe and came here April 27 with but \$5 in their possession. On the ground that they were liable to become public charges, they were ordered deported.

Today Attorney J. C. Catho applied for a writ of habeas corpus urging that they not be sent back to death.

SHOT BY SISTER, CHILD DIES IN MOTHER'S ARMS

By Associated Press.

PHILADELPHIA, June 10.—The son and heir of Robert Jenkins, shot and instantly killed by his five-year-old daughter, was lying in his mother's arms when the fatal shot was fired. The child was only three years old when the tragedy occurred. The mother, Mrs. Jenkins, was sitting in a room and the child was standing by her side. The child fired the shot while the mother was holding the child. The mother was not hurt. The child was taken to the hospital and died. The mother was notified and an inquest will be held. Funeral arrangements will be announced later.

Jitney Bus License Facing Court Test

Test in the courts will be made as to whether the city shall collect the difference of \$95 between the license charged jitney buses under the old ordinance and the new one. City Attorney Ben F. Woolner has rendered an opinion that the granting of a license to run one year for \$5 under the old ordinance does not entitle a driver to operate since the new ordinance, raising the license fee to \$95, has gone into effect.

W. J. Mitchell, a jitney bus driver, has been arrested for failing to pay the balance of his fee, and the case will be carried to the Superior Court, and perhaps higher, for a decision.

SEES WONDERFUL FINANCIAL FUTURE

Head of American Protective Tariff League Discusses Prosperity Prospects.

SAN FRANCISCO, June 10.—American Protective Tariff League, which has been successful in its efforts to secure the passage of the tariff bill, today announced that it has secured the passage of the tariff bill, which will result in a great increase in the revenue of the United States.

Colonel Leland thinks the war will last another year. "Some say two or three years," said Leland, "but something must give out within the next two months. The end may come through a financial shortage or through annihilation, but the trouble cannot go on much longer."

THE RICH MAN AND LITTLE LANDERS

At the Unitarian Church.

A rich man, who attended my first lecture on the Little Landers, in another part of the State, seven years ago, called the next day and said:

"Somehow you have stumbled upon the greatest truth in the world. Ever since I started, a poor boy, I have made a slave of myself to accumulate wealth in order that I might enjoy certain conditions of life. The very things which I sought to obtain through the possession of wealth, this movement of yours will bring within reach of our common humanity."

What did he mean? Well, he meant that he had desired to realize perfect individual independence, so that he might live his own life and beholden no one. He meant that he wanted to feel absolutely secure against want in old age. He meant that he desired to live in a beautiful place, where he might enjoy the charms of the country without sacrificing the many advantages that go with city life. He meant that he wished to live in the midst of good neighbors, with fine social and intellectual advantages.

In a word, he desired not merely to make a success of life, but to make a success of living.

Was this rich man justified when he said that it was possible to have a new life on the land which should offer to the masses of the people every essential good within reach of the comparatively few who succeed in making big fortunes?

Come and hear my illustrated lecture dealing with these questions in the light of actual experience. Much new material is being used, including some very remarkable instances showing results of intensive use of small areas in Oakland.

Remember the dates: Starr King Hall, Unitarian Church, Fourteenth and Castro, Oakland, Thursday, 2:45 p. m. and again 8:15 p. m., also same place and hours, Friday.

Outwits Show Men Could Not Fool Her

MADAME ELLIS

A little woman barely five feet in height, demure, unsophisticated and quiet as the tomb, has completely outwitted the fifty-odd worldly wise showmen out on the Exposition floor.

Her name is simply Madame Ellis. That's all anyone knows about her, save that she can read your mind, tell your love secrets and in various and sundry ways make you feel foolish.

But the wise showmen thought they knew a few things on their own account, and when it came to mind-reading or second sight, could give cards and spades and take the money. So they resorted to every known trick, even to using the Greek language on Madame Ellis.

With but one flash of her uncanny genius, she made the P. T. Barnum look like Longfellow's Evangelist.

Yesterday afternoon Madame Ellis was standing at the entrance to the theatre, where "Circus" the educated horse, is being exhibited, and in less than ten minutes she had made a fortune.

Madame Ellis is having the laugh on all her questioners. She is well worth seeing, but everyone is advised to have their pockets empty, as she has a penchant for revealing their contents.

GRAND PARLOR N. D. G. W. NOMINATES OFFICERS

SAN FRANCISCO, June 10.—Delegates to the Grand Par of the Native Daughters of the Golden West, who are holding their convention this week in Knights of Columbus Hall, spent yesterday in executive session hearing reports read by various committees and nominating officers.

Madame Ellis is having the laugh on all her questioners. She is well worth seeing, but everyone is advised to have their pockets empty, as she has a penchant for revealing their contents.

For grand vice president the nominees were as follows: Mrs. Marie F. Carmichael, Vendome Parlor 100, San Jose; Mrs. Mary I. Williamson, Santa Cruz Parlor 24, Santa Cruz; and Mrs. Emma E. Wright, Ursula Parlor 1, Jackson, Adair county.

Miss Alice H. Dougherty of Angelita Parlor 22, Livermore was nominated for secretary.

Mrs. Susie K. Christ of Yosemite Parlor 33, San Francisco, was nominated for grand treasurer. For grand marshal there were two nominees, Mrs. Doris Elson of Santa Clara Parlor 96, San Francisco, and Mrs. Marie E. Bell of Buena Vista Parlor 68, San Francisco.

Other nominations are: Grand inside sentinel, Mrs. Anna Lang, Argonaut Parlor 106, Oakland; grand outside sentinel, Mrs. Charles E. Hall, Berkeley Parlor 100, Berkeley; Mrs. Mae Edwards, Keith Parlor 137, San Francisco; and Mrs. Bessie Kohn, Darina Parlor 114, San Francisco.

Dr. Frank B. Carpenter read a paper on "The County Hospital Problem in California," in which he advocated state control of those institutions.

President B. L. Hodghead announced that the Public Health Department, under the guidance of Dr. R. L. Wilbur, will cause to be prepared and read before the club papers on malaria in sections of the state, disposal of sewage in rural districts, tenement houses, state-wide control of contagious diseases, disposal of garbage in rural districts, the fly and flea problem, the plague, and care of the insane.

Dr. Frank B. Carpenter read a paper on "The County Hospital Problem in California," in which he advocated state control of those institutions.

PRIVATE SETTLEMENT MADE. Suits which were filed some time ago by "Coca-Cola" and the Patent Cafe Company against R. T. Kessler, former manager of the cafe in this city, have been dismissed in the Superior Court, and a settlement made privately.

With the dismissal of the suits, the plaintiff has the entire credit of the cafe, and it is believed that the cafe will be able to continue its business.

Silky, Shapely Eyebrows and Lashes Easy to Have

(Beauty's Mirror) A woman cannot be said to be truly beautiful without she has long, curling eyebrows and well-shaped, clearly defined eyelashes. Fortunately, where Nature has been kind in this regard, science offers an effective, harmless method of attaining perfection.

By drawing a little into the eyebrows daily and applying it to the lash roots with the finger tip these features assume remarkably in growth, texture and lustre. Advertisement.

OAKLAND, CALIFORNIA, THURSDAY EVENING, JUNE 10, 1915.

NO. 110.

THIS YEAR'S CARNIVAL TO BE 'BIGGEST EVER'

Just four more days!
Only Friday, Saturday, Sunday, and
Monday to wait!
Then comes Tribune Day!
Then comes the day when all the East
Bay region holds high carnival at Idora
Park as the guest of the Oakland
Tribune.

Tribune day is not an event—it's an
institution. For several years the news-
paper has entertained its friends in the
big amusement park. Every year the
Tribune's treat has been more popular
and bigger crowd has attended it. This
year it's to be bigger and more at-
tractive and more fun.

NEXT TUESDAY is the time.
TUESDAY, JUNE 15, is the date.
And the big joy-day is ABSOLUTELY
FREE to every man, woman or child of
the east bay region asking for the
tickets.

The free slips of joy are being dis-
tributed by hundreds in the leading
stores of the east bay region and at the
main and branch offices of the Tribune.
Every day sees more issued, but the big
park can accommodate all, and every
possible care will be taken to see that
every guest has all the fun possible.

Three concession passes will admit the
visitors to the park's different features.
Among the attractions on the free con-
cession list are the following:

CAROUSEL.
PEANUTS.
CIRCLE SWING.
MINIATURE RAILWAY.
MOVING PICTURES.
RAPIDS.
SCENIC RAILWAY.
TUBBOGGAN.
RACING COASTER.
STATUES.
Dr. Carver's Diving Horses will put on
special feats for the visitors at the big
celebration.
Manager of the Park has pledged his
management to see that every guest
will be taken care of, extra attendants
will be on hand to aid in caring for the
guests, and every possible feature for the
comfort of the visitors will be taken into
consideration.
To avoid crowding, the tickets are
being issued for morning, afternoon, and
night admissions. Ask for the kind you
want when getting the free passes. At
the gates the guests will be given their
free concession slips and other slips, and
will then be ready for the joys of the
park. It's the Tribune's treat, and
everyone's invited.
There are tickets for all—and all free
for the asking.
Again, remember the day.

Prizes For Joy-Day! Auto Awaits Winner!

It's summer now! Motor-
ing is the sport!
It cures the blues and all
the other ills man is heir to
—and everybody wants an
auto.

Join The Tribune Day
crowds at Idora Park and you
may drive one home. One of
the features of the day is the
awarding of the prize of a
\$500 Ford automobile to one
of the lucky Tribune guests
holding the winning coupon.
There'll be other prizes, too
—a handsome easy chair and
a phonograph.

The Ford touring car of-
fered as the first prize was
donated by The Tribune for
the lucky guest at the big joy
day. The second prize will
be a Gustav Stickley "Crafts-
man" easy chair, donated by
Breuner's, and the third prize
will be a \$50 Grafonola, do-
nated by the Central Phono-
graph Parlor.

The coupons will be given
FREE to every Tribune guest
entering the Idora Park gates
next Tuesday. The drawing
will take place in the open air
theater. Don't forget to get
your coupon.

Besides the prizes there'll
be many other attractions,
free concessions, free amuse-
ments and joy the whole day.

MISS MOORE WILL WED TONIGHT

Society Surprised Last Night
By Announcement; Cere-
mony This Evening.

Society received a genuine surprise
at the Palmerston-Gibson wedding
last evening, when it was announced
that Miss Margaret Moore, youngest
daughter of Mr. and Mrs. A. A.
Moore, who was one of the brides-
maids, would be married today to
Donald McClure of San Francisco.
The ceremony will take place at 6
o'clock this afternoon at the Church
of the Advent, in East Oakland, and
less than 30 guests will be present.
There will be no reception, the young
couple departing immediately after
the wedding on the honeymoon trip
to Southern California. Miss Moore
has been one of the prominent belles
of society since her debut two years
ago. She is unusually pretty and at-
tractive, with the family heritage of
cleverness. She is the sister of Stan-
ley Moore, Mrs. Jack Valentine, Mrs.
Walter Starr, Miss Ethel Moore and
the late A. A. Moore Jr. The family
has been prominent in Oakland for
many years, and the bride's father is
one of the best known lawyers in the
state.

McClure is the son of Mr. and
Mrs. James W. McClure of Berkeley,
formerly of Nashville, Tenn., and he
is a grandson of the late Thomas
B. Eastland and Mrs. Eastland. His
cousins are Tom Eastland of Bur-
lingame and Joseph Eastland of
Clare. He graduated from the University
of California several years ago and is
practicing law in San Francisco. He
is a member of the Beta Theta Pi
Fraternity and of the Olympic and
University of California Clubs. His
devotion to Miss Moore has been
marked for the past year and the en-
gagement was frequently rumored,
but the news of the sudden wedding
came as a surprise.

Miss Moore has been bridesmaid at
several of the brilliant weddings of
society, but for her own marriage
planned a simple ceremony. She will
wear a dainty afternoon gown of pink
net with a pink picture hat. Instead
of the usual elaborate creation and
veil, and will carry a shower of
lilies of the valley. There will be no
bridesmaids. Noble Hamilton of San
Francisco will be best man, and Rev.
William Hardie, minister of the
Church of the Advent will read the
marriage service. The bride will be
given away by her father.

Among the guests at the ceremony
will be Mr. and Mrs. James W. Mc-
Clure, Mr. and Mrs. A. A. Moore, Mrs.
J. R. Moore, Mr. and Mrs. Stanley
Moore, Mr. and Mrs. Walter Starr,
Mr. and Mrs. Jack Valentine, Miss
Ethel Moore, Mr. and Mrs. George
Beanson of San Francisco, Mr. and
Mrs. A. L. White, Mrs. W. E. Good-
fellow, Miss Edith Goodfellow, Mr.
and Mrs. James Kenna, Mrs. William
Creed, Miss Georgia Creed, Mr. and
Mrs. F. M. Smith, Miss Anne Spring,
Miss Marjorie Moon, Miss Sepha
Pickett, Miss Rena Brooks, Miss
Dorothy Dealing, Miss Ethel Valen-
tine, Messrs. Leon de Fremery, Harry
Heasley Fair, John Miller and several
others.

Only members of the family were
taken into the bride's room, and plans
although it was decided several
weeks ago to have the quiet
ceremony today. Announcements of
the marriage will be sent out to-
morrow by Mr. and Mrs. Moore. The
young couple will live in San Fran-
cisco.

BUENOS AIRES DECEASED.

Double honor was paid Alameda County
by the John Breuner Furniture Com-
pany today. Not only was the price
business of the corporation closed and
the employees given a day at the ex-
position, but the big building at Thirteenth
and Franklin streets was decorated from
roof to basement with hundreds of flags
and places of burning to blue and gold,
the official count day colors.

U. S. MUST ESTABLISH PEACE MEXICO, RULED BY ANARCHY, IS HELPLESS ACQUIESCENCE POLICY IMMORAL

Dean Barrows Writes Graphic
Review of Situation in the
Southern Republic.

(By DAVID P. BARROWS.)

Authentic information from Mexico
is difficult to obtain. The service of
the American press is apparently not
being sustained. For some months the
papers of the Mexican capital have
either suspended publication or failed
to reach their usual destinations in
the United States. The reports given
out by agents of the rival factions are
obviously unreliable, while the knowl-
edge possessed by the government at
Washington is not at the disposal of
the American people.

No feature of the administration's
conduct of the Mexican problem is
more singular than its refusal to ac-
knowledge the American Congress and the
American public with the information
which it possesses, and upon which
the decision of the people and of the
government must be made. During the
last Congress repeated efforts were
made to obtain from the state de-
partment authentic information about
Mexico, but these efforts were re-
sisted and failed. It was announced
that by Secretary Bryan, former
United States district attorney in
Texas and the last emissary of the
President to the republic, would not
be made public, although it appears to
have been altered the President's
position toward Mexico.

AMAZING ATTITUDE.

The attitude of Mr. Wilson's gov-
ernment in refusing to give publicity
to its information and in resenting the
effort of the American people to form
an independent opinion itself, is un-
precedented and amazing. It is not
compatible with the usual ideal of
republican government and appears to
refuse to recognize the place which
public opinion takes in the formation
of American policies. To one inter-
ested in the future of Mexico and con-
cerned that the republic should be
restored to its normal status, the
policy of acquiescence is not only
repulsive, but it is a source of con-
fusion and of second-hand information
derived from acquaintances who have
recently returned from the seats of
disorder.

The plain outstanding fact in re-
gard to Mexico at the present moment
is that the federal republic no longer
exists. There is no national govern-
ment in Mexico and there has not been
since Huerta was driven from the
country last July. Mexico is today
broken up into different sections, each
endeavoring to nurse its own way. It
is not merely the peace and order of
the republic that is gone, but its unity
as well. This is not surprising in a
country which presents such extreme
diversity.

POPULATION DISMILAR.

Chihuahua and Yucatan are as dif-
ferent as two separate countries of
Spanish America can be. The Amer-
icanized state of Sonora and Coahuila
are strikingly dissimilar from the In-
dian states of Oaxaca and Michoacan.
In part the cleavages are due to his-
toric causes. Yucatan and Chiapas
before 1821 were no part of Mexico,
but belonged to the captaincy-general
of Guatemala. The Provinces, In-
ternally, which were the northern
states of Mexico were distinct in
their administration, their population
and their life from the old Kingdom
of New Spain. Mexico is disintegrating
along the lines of racial division and
historic tradition.

The latest proclamation of President
Wilson appears to suppose that it is
still possible to pick a favorite among
the contending chieftains and by the
"moral influence" of Washington to
secure its ascendancy. It is to be this
utterly erroneous expectation.

There is no individual in Mexico to-
day able to command national recog-
nition and the moral influence of
Washington is nil. From the days of
broken treaties and broken promises
diplomatic influence in Mexico was a
great thing. It used to be said that
next to Porfirio Diaz, the most in-
fluential man in the republic, was the
American ambassador, and consider-
ing the strength of the American
position it is hardly surprising that
it was exercised so fairly and well; but
the day of this moral power has passed.
The catastrophes and humiliations
which have discredited the efforts of
Mr. Knox and Mr. Wilson in Mexico
have overwhelmed the established
work of half a century. President
Wilson today may exert whatever
moral pressure he will; it is safe to say
that not a single cause in Mexico
will give it any more heed than he
thinks will make for his own personal
advantage.

FIRM ACTION REQUIRED.

Since the assassination of Madero
there have been repeated occasions
when intervention appeared right and
practicable, but the temper of the
administration, nor the nation
seems fit for so hard a resolution,
and unless it be done with determi-
nation it had best not be attempted
at all.

Even in a situation so horrible
and desperate as that of Mexico
today, one must think first of the
repute and dignity of his own na-
tion. These ought not to be fur-
ther impaired by a reputation of
such pusillanimity as that of the
occupation of Vera Cruz.
If anything is to be done for
Mexico within the next two years,
some method consistent with the
present temper of the nation must
be found. If our government
does not possess the hardihood to
grapple with the difficulty as a
whole, much may yet be accom-
plished by attacking the problem
piecemeal. The present disin-
tegration of Mexico, prejudicial
as it may be to the prospects of
the federal republic, is neverthe-
less a situation to be recognized
and taken advantage of. The
American government cannot
denounce circumstances restore
Mexican unity, nor set up a fed-

eral executive, but I believe it can
deal directly with certain Mexican
states, secure agreements guaran-
teeing these states against fur-
ther conflict, and restore them to
civil rule. The disturbed area can
then be brought back to normal
conditions, confined to the
high central plateaus of Mex-
ico, where the armies of Villa
and Obregon have for weeks
been locked in indecisive strug-
gle. If peace cannot be re-
stored to Mexico as a whole, it
can be made tolerable again to
large portions of the republic,
and particularly those states
where American interests are
most important and American
lives most numerous.

Let me emphasize the view that
it is the great office of federal
executive which is beyond the
present capacity of the Mexican
nation, nor the government of the
separate states, wherein the limited
territory, homogeneous popu-
lation and strong local attach-
ment contribute to bring the
problem within the compass of
contemporary Mexican political
ability.

SITUATION IN DETAIL.

Let us look at the situation in de-
tail. The portion of the republic that
bids first for attention is that facing
the Gulf of Mexico close to the
ports of Galveston and New Orleans.
The state of Tamaulipas, a long
maritime state of Tamaulipas
and Vera Cruz, Vera Cruz is possessed by
the Carranza forces, although a report
of the special representative of the
State department, as late as May 31,
describes Carranza's government as
fast losing control of these regions
and anarchy taking its place. The
beautiful city of Jalapa, and center of
the coffee industry, was recently
besieged by Carranza's soldiers, and
bands of marauding troops. The
region, however, is in a real sense,
dominated by the Carranza element
and the forces of General Obregon,
and here a Carranza governor should
be recognized by the United States.

The state congress, that was sup-
ported by General Huerta, should be re-
assembled, and its sanction obtained
to a state loan furnished by the United
States for the relief of famine and dis-
tress and for the reorganization of the
forces of security. It would be desir-
able that the expenditure of this loan
should be under American super-
vision, and to accomplish this the
"Treasurer-General" of the State
of Vera Cruz should be agreed upon
with the Carranza party be an
American nominee. Notice should be
served upon the warring elements to
the northwest in the State of Guan-
ajuato, that Carranza's Obregon drives
him northward or Villahermosa, Obre-
gon back to the south, the fighting
must not out again break through
into the boundaries of the State of
Vera Cruz, and American marines at
the port of Vera Cruz should have the
right to enforce this neutrality.

DIFFICULT SITUATION.

In Tamaulipas, to the north the
situation is somewhat more difficult,
because here the struggle is still go-
ing on between the Carranzistas and
Villistas. Recent dispatches indicate
that Villa's followers have been driven
from Tamaulipas, but Carranza's
forces in the vicinity of Tampico, and it would
appear that the Carranzistas, who hold
the port of Tampico, should be re-
cognized here and the Villistas prevail-
ing upon to retire westward into the
interior. Carranza should be urged to
support him. Tamaulipas is a region
notable for recent oil development,
much of which is in British hands.
The protection of these wells and
tanks has repeatedly awakened the
anxious interest of the British gov-
ernment, and the United States in
defense of its policy of excluding Euro-
pean interference has added reason
for exerting itself to establish stable
government in this state.

Yucatan presents no difficulties
whatever. It can be dominated
through the port of Progreso, where
an American gunboat is now station-
ed. The Mayas of Yucatan are for
neither Carranza nor Villa, but for
themselves. Carranza should agree to
a state which the Mexican consti-
tution ineffectively guarantees. Wash-
ington has recently interfered against
Carranza's intention of closing the
port of Progreso in the interests of
the purchase of the "Green Goods"
of Yucatan by the International Har-
vester Trust. Washington should now
go further and absolutely protect and
reassure this state against further
attacks from revolutionary fighting
in which it has no stake, nothing to
gain. Long ago, and more than once,
Yucatan sought annexation to the
United States; she is today an impor-
tant and wealthy state of Mexico, but
she would not resent American aid.

MINE SINKS SHIP.

By Associated Press.
LONDON, June 10.—The schooner
Susannah, of Preston, was sunk by a
mine in Bristol Channel yesterday.
The crew was landed at Falmouth.

AMERICANS INTERESTED.

It is also a region in which Amer-
icans are greatly interested, and which
has suffered heavily from the war.
The people are largely descendants of
Spanish colonists who found no bodies
of sedentary Indians with whom to
mingle. Many are hard riders, good
shoots, similar in thought and feeling
to our own southern frontier popu-
lation, greatly affected by American in-
fluence, and friendly above all other
parts of Mexico to the United States.
The state of Chihuahua is the natural
passage-way between the two nations.
Here the revolution under Madero
broke out and had its genuine
strength. The aims of these revolu-
tionaries, while over-radical in some
respects, are perhaps more legitimate
than those of any other revolutionary
camp. A convention between the
state of Chihuahua and the United
States government, to assure its neu-
trality and stability and afford it
financial reorganization, would be of
immense advantage to the people on
both sides of the border. Much the
same holds true of Sonora. But here
Carranza has followers, and small en-
gagements occasionally occur, some-
times even on the streets of a part
of the border towns. Built partly on
American soil and partly on Mexi-
can, like Douglas and Anna Prieta,

The very difficulties which face May-
agra should influence him to ac-
cept such offer of American help as
was suggested by Vera Cruz.

IMPORTANT TO CALIFORNIA.

The territory of Baja Califor-
nia, is of particular importance to
the people of California because
the great irrigation works, which
under the provisions of the Imperial
valley pass through this territory,
and their renovation is a
pressing necessity. Now the lat-
est news from Baja California, is
that the territory has repudiated
all revolutionary alliances, de-
clared its own neutrality, and
asked that it be no longer distur-
bed. In this policy it should have
the defense of the American fleet.

The western coast of Mexico is
indented with a long line of beau-
tiful and important ports, Topo-
labampo, Alamos, Mazatlan, San
Salas, Manzanillo, Acapulco and
Salina Cruz. Every one of these
ports has been the scene of blood-
fighting, massacre and reprisal,
while American warships, which
could have prevented dreadful
loss of life, have lain silent and
impotent. The Carranza govern-
ment has issued orders for the
cause orders not to interfere.
This policy of acquiescence should
end. Every one of these ports
should be placed under American
protection. Ayuntamientos or
municipal governments should be
chosen by the people of these
towns, and recognized by our
government as the legitimate de-
facto governing authorities of
these ports, and they should be
protected by the American ves-
sels in their harbors, and sup-
ported in such ways as appear to
be desirable. They are not only
havens of refuge available to a
displaced people on a coast two
thousand miles in extent and
human considerations demand
that they be no longer desolated
nor left insecure.

CAPITAL IS IMPORTANT.

There remains to be considered the
City of Mexico. It cannot be over-
looked in any policy which the Amer-
ican government adopts. Far away, it
is the most interesting city of both
America and one of the most beau-
tiful. No place on either of the
continents has such historic treasures or
has made greater and more creditable
struggles to realize those achieve-
ments which distinguish civilization.
For nearly a year the City of Mex-
ico, albeit the capital of the republic
has had no valid government. The
forces of Carranza, Zapata, Obregon,
and Zapata again have successively
occupied it, looted and departed. Its
great population of the lower classes,
Evaya on the verge of want, is un-
questionably suffering unspeakable
misery and famine. Its foreign popu-
lation, still apparently considerable,
and its cultivated native classes, are
without security or the necessities of
this purpose once made, the capital
of revolutionary Mexico. City has proved
to be neither a political or military
advantage to the contending elements,
should make it possible for the United
States to extend a protectorate to
this city and the federal district in
which it lies. Local representative
authorities, perhaps the Ayuntamien-
to, which was shorn of its legitimate
powers in the time of Diaz, should be
directly dealt with by the United
States as the one possible reputable
institution at present.

OPEN THE RAILROADS.

The line of the Mexican railway
running eastward to Vera Cruz should
be opened and protected. Funds
should be supplied to Mexico City and
its wants relieved. Agreement should
be made with Carranza that the United
States should not hesitate to estab-
lish within the federal district, and
preferably to the west or southwest
of the city, a military camp with a
force of such proportions that any at-
tack upon the capital would be im-
practicable and not be delayed. Then,
when the time came for a Mexican
congress or a constituent convention
representing all states and elements
of the republic to assemble to give
Mexico again a national authority, it
would not be subject to intimidation
and dispersal as was the national
congress under Huerta or the conven-
tion at Aguas Calientes by Villa.

The restoration of Mexico will be
a long task. It cannot be accom-
plished in a day. It cannot be brought
about by "moral" influence, but
the difficulties which it presents
should not deter our govern-
ment from aiding at least a little
where a little is possible, or from de-
laying its efforts for another day.

Old Mortgage Paid Up

She Now Wears Gloves

By Associated Press.
LOS ANGELES, June 10.—For
the first time in 25 years Mrs. H.
P. Anderson of Burbank, Cal-
ifornia, wore today a pair of kid
gloves. Mrs. Anderson, who is a
delegate to the convention of the
Southern California Woman's
Christian Temperance Union, had
resolved that she would wear no
gloves until a mortgage on the Los
Angeles W. C. T. U. temple was
paid.

The debt which originally was
for \$30,000, was cleared today by
funds made available from a legacy
of \$25,000 left by Samuel Little.
During the ceremony of burning
the mortgage Mrs. Anderson arose
from her seat and said:
"I can wear my kid gloves
again. I have not had on a pair
since that mortgage was assumed
twenty-five years ago. I then
made a vow to forego that luxury
until the debt was paid."

NON-PARTISAN CAMPAIGN TO START

Socialists Join Ranks of Other
Parties in Opposing
Measure.

Referendum petitions against Gov-
ernor Johnson's state non-partisan
bill, which aim to break up party
lines, will begin circulation in all of
the principal cities of the state next
Saturday, according to W. C. Ralston,
chairman of the Republican commit-
tee appointed to organize the polit-
ical parties in their fight against the
measures.

Ralston returned to San Francisco
from a trip to Los Angeles, bringing
word that the Socialists of the state
would unite with the Republicans,
Democrats and Prohibitionists in the
fight against the Johnson bill. While
in the southern city, Ralston conferred
with T. H. Williams and C. H. Burger,
chairmen of the Socialist and Prohibi-
tionist parties, and various leading
Republicans and Democrats.

"Williams, who is state chairman
of the Socialist party, told me that I
could rely upon every Socialist in Cal-
ifornia to vote against the Johnson
program. The Republicans and
Democrats of the South will take de-
cisive action this coming week, and
will circulate hundreds of referendum
petitions," said Ralston today.

SUPPORT PLEDGED TO PRES. WILSON

**Council of Librarians Wires
Resolutions of Confidence
to Washington.**

BERKELEY, June 19. — Pledging its President, Wilson its sympathy, confidence and concern in these times of national crisis, the American Library association, through its executive council which met yesterday afternoon, has telegraphed the following:

were spread on the minutes. Exposition officials and Henry W. Kent and T. M. Cleland, speakers who crossed the continent to be present although not members of the association, were also officially thanked. The association, by resolution, deplored the unavoidable absence and the illness of J. L. Gille, president.

A train load of delegates who are to leisurely return to the east through the northwest, left last night. Many of the association members are remaining in California for the summer and the city is still entertaining a large number.

PLAN WAYS TO SEND YOUTHS TO COUNTRY

During this summer, the recreation commission is formulating plans for several outings. Mrs. Ellen Allen and the superintendent of recreation have recently been out in quest of a suitable place to establish a camping ground for Alamedans who have the cravings for the woods and streams. Redwood peak has been selected as the

Some thought was given to establishing the camp at Willow Camp, but this was not practical, because of the prohibitive cost to many of the children. The plan is to formulate clubs and Boy Scout groups at the different playgrounds.

The boys so organized will be taken up at various times under the supervision of men in the department.

The commission is desirous of making these outings of educational value to the children, as well as to give them a view of the department.

of the Redwoods. E. J. Frost, chairman of the commission, is anxious to give all the boys a chance to get to the country. As soon as the plans are worked out in detail the boys of Alameda will be notified and will be given a chance to avail themselves of this outing.

Chas. Fair Relatives Win Point in Case

NEW YORK, June 10. — Justice Cavegnan, in the supreme court, has denied the application of Mrs. William E. Vanderbilt Jr. and Mrs. Herman Oelrichs, sisters of the late Charles L. Fair of California, to dismiss the suit of the nephews and niece of Mrs. Fair for their proportionate share in the Fair estate.

Mrs. Fair and her husband were killed in an automobile accident in France in 1902, and Mrs. Vanderbilt and Mrs. Oelrichs received the bulk of the \$1,000,000 estate.

The plaintiffs say that they will ask the supreme court to set an early date for trial. It is expected that in this trial the question of whether Mrs. Fair died testate will again be brought up.

Sail for Greenland to Relieve McMillan

NEW YORK, June 10. — The three-masted schooner George, of New York, with a crew of eight and provisions enough for two years, sailed last night for Greenland to relieve the McMillan party, who were sent out two years ago to explore Greenland, the existence of which is still a matter of dispute.

SOLONS TO VISIT YOSEMITE VALLEY

Congressmen Enjoy Trips Over
South; Plan Invasion
of Park.

By Associated Press.
LOS ANGELES, June 10.—Inspection
trips to the Los Angeles Aqueduct and
harbor were the plans today for the en-
tertainment of the committee on appropria-
tions of the House of Representatives
and officials of the reclamation service
who are visiting the government irriga-
tion projects.

Congressman John J. Fitzgerald, chair-
man of the House Appropriations Com-

mittee, headed the party of twelve con-
gressmen. A. P. Davis, director and
chief engineer, is accompanied by six
members of the reclamation service.

Plans for the trip include automobile
drives to the San Fernando dam and a
trip to the Harbor to Long Beach.

The party will return to their train in
the evening, and leave for Yosemite Val-
ley tomorrow morning.

Among those who are making elaborate
preparations for the day are Harry H.
Hollidge, F. N. Kornhaus and Charles S.
Carfield.

'SAR' IS COMING NEXT WEEK BRIGHT BILLS AT THE THEATERS

Vaudeville and Musical
Comedy Shows Draw
Crowds

"SAR" with Mimi Hagen, opens Sun-
day night at the Macdonough after a
tremendous hit achieved last season
in all of the New York Asa-
theatrical critics have pronounced it
superior to "The Merry Widow." Both
operettas were produced by Henry W.
Savage, and Mr. Savage's taste as pro-
ducer of its excellence, musically, scenic-
ally and as an entertainment.

The name part is acted and sung by
Mimi Hagen, who demonstrates in this
role her great gift as soprano, prima
donna comedienne and dancer.

Others in the original New York cast,
which will be seen here, are Charles
Manning, Bert Gilbert, Charles Wood,
Howard Marsh, John Squires and others.

It is seldom that so distinguished a
writer as is Cleveland Moffet or so popu-
lar a magazine as the American Maga-
zine devotes time and space to the ex-
ploitation of motion pictures but this
time it was given to the story of mo-
tion pictures entitled "The Pope and the
Devil" which is being shown at the
Stevie of San Jose, California.

These remarkable films which recently
drew crowds in California's two Exposi-
tion cities, San Francisco and San Diego,
when they were exhibited and will be
shown at the Macdonough theater for
ten days beginning Sunday, June 10,
with daily exhibitions at 2, 4, 7 and
9 p. m., with special organ recitals at
each presentation, this city being one of
the few in California where these re-
nowned pictures will be presented.

A pleading announcement to theater-
goers of this vicinity is the scheduled
appearance at the Macdonough of Billie
Burke in her last season's comedy suc-
cess, "Jerry." Her engagement here is
for 3 days and a matinee commencing
Thursday, July 1.

**DE HAVENS PLEASE AT
OAKLAND ORPHEUM**
The remarkably graceful and finished
work of Mr. and Mrs. Carter De Haven
is proving a joy to those who are throng-
ing the Oakland Orpheum this week.
Carter De Haven and his wife illustrate
the extreme polish that the stars of the
biggest eastern productions are required
to show. All his work is a revelation in
that respect.

Madame Benson has a very impressive
sketch, "It Doesn't Happen" written by
Channing Pollock and played with rare
skill by Madame Benson's carefully se-
lected company.

The laughs are long and frequent when
Fisher and Green take the stage with their
comedy skit, "The Partners."

Percy Branson and Winnie Baldwin are
from song and dance land and their bal-
lads are of the classy kind.

The wonderful chimpanzees presented
by H. Key, "Who Starts Where Others
Leave Off" is a big feature.

The Panzer in Europe in a con-
tortion novelty and Newhoff & Phelps
who are called "Magnetic Mischief Mak-
ers" round out the show.

Charles Chaplin appears in "The
Tramp," and a review of the American
Fleet at New York City by President
Wilson is also shown.

MRS. CARTER DE HAVEN,
ORPHEUM.

Director John R. O'Brien's fault that Miss
Jennie Lee, the famous Griffith charac-
ter woman, became so ill during the
filming of a scene for the four-part Mu-
tual Masterpicture, "Her Shattered
Idol," that she was able to continue only
after being given an hour in which to
recuperate.

While rehearsals were in progress Di-
rector O'Brien suggested that Jennie
Lee, as the mother of the blacksmith,
should smoke a pipe in order to register
a point he had in mind. Miss Lee con-
sented and a pipe was secured. When
the scene had been carefully rehearsed
without tobacco O'Brien told the camera
man to get ready, filled the pipe, lit it
and handed it to Miss Lee. Click, click
went the camera. puff, puff went Miss
Lee. Suddenly the camera began record-
ing a very queer expression as it slowly
dawned on the actress' face.

"Here, that'll never do. Stop that
camera," cried O'Brien, while Spot-
lighted Aitken and Miss March sprang
forward to administer first aid. Was Miss
Lee forced by this first failure? She was
not. An hour later she went through the
scene without a hitch. "Her Shattered
Idol" will be shown at the Franklin The-
ater today, tomorrow and Saturday.

BROADWAY

The comedy tabloid, "The Blopers,"
presented by Roy Clair and his fifteen
players as the feature of the all-in-one
bill of exposition vaudeville, for films
and comedy tabloids now being offered
at the Broadway theater, is the most
mirthful one act play seen in some time.

The laughable situation of a father, hav-
ing eloped with "the girl" meeting his
wife, eloping with her mother, at a little
country hotel, affords continuous laugh-
ter and is made the most of by the play-
ers. Clair wins many laughs as St. the
country boy.

Remarkable juggling of heavy steel
balls and lamps, with Scottish wit, is
presented by Billy Kinkard, while an ar-
tistic acrobatic act is staged by Miller
& Miller. Morton and the Jewels, enter-
tainers de luxe, present a snappy, clever
act.

For the new bill opening Sunday, the
Broadway has secured Raymond Teal,
the world's greatest blackface comedian.

Miss Dorothy Raymond, sister of the
popular Maxie Mitchell, will make her
initial appearance Sunday with the Clair
players in the tabloid farce, "The Gay
Deceivers."

IDORA PARK

Musical comedy will open at Idora Park
next Thursday night with a company of
artists, comedians, singers and dancers,
from New York City. The opening show
will be "They're Off," a sprightly and
sparkling farce-comedy, with musical set-
ting. It has not been heard before on
the Pacific Coast.

The orchestra will be one of the best
in the bay region. The only member of
the organization known to the local
public will be Musical Director John
Raynes.

An all-English musical comedy com-
pany, including several of the comedians
and singers who delighted Broadway
New York audiences last winter, will be
the big feature attraction this summer at
Idora Park. The new company will open
Thursday night in "They're Off." But
few of the names of the principals in the
Idora musical comedy troupe will be fa-
miliar to western ears.

There is a prince of comedians, who
was starred on Broadway two seasons
ago. Harry Bowen, another clever
artist, will be second comedian while
Carrick Major will do character work and
comedy. Clarence Lydston will carry
the juvenile lead, and James Douglas, a
New York character man, the Miss Josephine
Saunders will be prima donna of the
company. Lillian Mason will be charac-
ter woman, and Jessie Williams ingenue.

DR. MUCK TELLS OF SWINDLE GAME

Boston Orchestra Leader Takes
Stand in Case Against
Pseudo Agent.

SAN FRANCISCO, June 10.—Dr. Karl
Muck, leader of the Boston Symphony
Orchestra, who is residing temporarily
at the Fairmont Hotel, took the witness
stand yesterday morning before Judge
Sullivan's court and testified against
Felix Grunwald, a German, ac-
cused of obtaining money under false
pretenses. The distinguished musician
described how he had been led to pay
\$50,000 in cash to Grunwald on the repre-
sentation that the latter was a dubi-
ous agent of "Fatherland," a
German publication, and that the money
was to be used to offset whatever anti-
German feeling might have been created
by the war.

The evidence showed that the defend-
ant had called upon Dr. Muck, presented
his credentials and had easily won him
over to the cause. "It was only after the
man came to me repeatedly and wanted
me to pay him more money to publish
my picture that I became suspicious,"
declared Dr. Muck, "and wrote to my
friend, Maurice Stern, to find out for me
whether he was all right."

Other witnesses including James Stew-
art, the authorized agent of Fatherland,
declared that Grunwald was an impostor.
C. E. Grunsky, former city engineer,
E. L. Hueter of the Hueter paint com-
pany, and Max Schmidt all declared that
the signatures the defendant had shown
Dr. Muck were forgeries and that he had
never been to call upon them. Grunwald
had the names of all the prominent
Germans, millionaires and merchants on
his list. He planned to bleed Dr. Muck,
having prepared promissory notes aggre-
gating \$100,000 in favor of the musician,
hoping to obtain from him expense money on
the strength of a telegram from the home
office.

Police Judge Sullivan, after listening to
the evidence, held him to answer to the
superior court, placing a second charge
of obtaining money under false pretenses
and a forgery accusation on the reserve
calendar.

DEFEAT SHIMADA'S IMPEACHMENT

TOKIO, June 10.—The Diet adjourned
yesterday. In the last hour the House
defeated a move of the opposition which
presented a resolution for the impeach-
ment of Saburo Shimada, president of
the House. The resolution charged M.
Shimada with having made ruling in
favor of the supporters of the govern-
ment and also with having permitted
the worst disorders in the history of
parliament.

EAGLES SEEK HEN THIEVES

Mrs. C. F. Leidecker, 1427 Thirty-sixth
avenue, sent a call for aid and suc-
cess to the Melrose police station,
stating that her chicken yard had been
invaded by marauders intent upon steal-
ing valuable fowl. A posse of police
was rushed to the scene in the patrol
wagon, and Captain Brown organized a
vigilante committee of Fruitvale Eagles
to patrol the district. The chicken thieves
were not captured.

Will Cut Valuations on Old Residences

Instructions were issued today by City
Auditor L. H. Clay to the inspectors at
work on valuing dwellings in the resi-
dence districts for assessment purposes
to reduce the valuations on old houses
where there are in need of repair. The
purpose of the change is to give
owners an opportunity to make necessary
repairs and improvements.

"The burden of taxation has been very
heavy upon small property," said Audi-
tor Clay, "where the value per front foot
was not high. The order I have issued
does not apply to the business districts
or semi-business districts. The owner
of a house erected several years ago
has paid pretty heavily in the form of
taxes, and should receive consideration
if his home has depreciated in value."

Aged Man, Struck by Train, Meets Death

Dietrich Buntage, an aged German
who has suffered from deafness, was
struck by a Southern Pacific electric
local last night at Eighth street and
the railroad right of way and instant-
ly killed. The body was removed to the
Morgue, where an inquest will be held.
Buntage was over 70 years of age. Little
is known by the authorities concern-
ing him.
